

HARD&SOFT

Suceava 2016

A Message from the Jury

Dear Contestants,

We hope you are all looking forward to H&S 2016 and you are ready to show us your talents and skills as you carry out the contest task.

The task is based around specific hardware that will be available on the first day; however, we would like you to bring some commonly available items with you that may be useful or make demonstrating your work easier. They are:

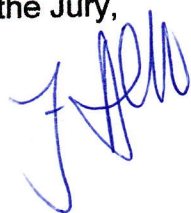

A wireless router

One or two web cams

An Android smartphone or tablet.

You are, of course, free to bring and use your own laptops.

On behalf of the Jury,

Timothy Hall

President of the Jury
