MASTER OF SCIENCE
Communication Disorders

CALU
Graduate Studies

specialized training in speech and language disorders

The Master of Science in Communication Disorders provides specialized training in all areas of communication disorders. Graduates are qualified to provide clinical services to individuals of all ages in a variety of settings including public and private schools, hospitals, rehabilitation centers, government agencies, and private practice. The University has excellent facilities including a large clinic and a Language & Learning Center located within the department, along with a technologically advanced Communication Science Laboratory. Our graduates have a 100% pass rate on the Praxis exam, as well as a 100% employment rate within a year of graduation. This academic program can be completed in five consecutive terms.

Applicants without a bachelor's degree in communication disorders will need to complete 36 credits of undergraduate prerequisite coursework prior to applying for admission to our graduate program.

PROGRAM OBJECTIVES

To recruit and retain a talented, diverse, and highly motivated student and faculty base.

To offer high quality graduate academic instruction in the specialized area of communication disorders.

To provide clinical field practice opportunities through contractual agreement with many diverse regional facilities in which high-quality speech-language diagnostic and therapeutic services are provided, including hospitals, clinics, homecare agencies, long term care facilities, schools, and physical rehabilitation centers.

To help meet the academic, clinical, consultative and employment needs of the region through faculty and successful graduates.

Graduate Programs with a Higher Degree of Character

Graduate programs at California University help people adapt to changes in their professional lives and position themselves for new professional and leadership opportunities. Our master's degrees and professional certificate programs are academically rigorous, and they build upon the rich work experiences that students bring to their studies.

Regardless of the degree program that you choose to pursue—either on campus or through Cal U Global Online, the University's mission of "Building Character, Building Careers" is a driving force in the curriculum. We look forward to receiving your application!

For complete course descriptions of all master's degree and professional certificate curriculums offered in a variety of academic disciplines at Cal U, visit www.calu.edu.

Delivery Mode

Traditional (face-to-face delivery with some online/distance elements)
