

OMICS INTERNATIONAL

OMICS International through its Open Access Initiative is committed to make genuine and reliable contributions to the scientific community. OMICS International hosts over **700** leading-edge peer reviewed Open Access Journals and organizes over **1000** International Conferences annually all over the world. OMICS International journals have over **10 million** readers and the fame and success of the same can be attributed to the strong editorial board which contains over **50000** eminent personalities that ensure a rapid, quality and quick review process. OMICS International signed an agreement with more than **1000** International Societies to make healthcare information Open Access.

OMICS Journals are welcoming Submissions

OMICS International welcomes submissions that are original and technically so as to serve both the developing world and developed countries in the best possible way.

OMICS Journals are poised in excellence by publishing high quality research. OMICS International follows an Editorial Manager® System peer review process and boasts of a strong and active editorial board.

Editors and reviewers are experts in their field and provide anonymous, unbiased and detailed reviews of all submissions. The journal gives the options of multiple language translations for all the articles and all archived articles are available in HTML, XML, PDF and audio formats. Also, all the published articles are archived in repositories and indexing services like DOAJ, CAS, Google Scholar, Scientific Commons, Index Copernicus, EBSCO, HINARI and GALE.

Biography:

Ted Eckmann received his PhD in Geography from the University of California at Santa Barbara in 2009. He then worked as an instructor and researcher at Bowling Green State University for four years, then moved to Portland, Oregon, where he has served as an Assistant Professor of Environmental Studies within the University of Portland since August 2013. Ted has also received a Certificate in College and University Teaching (CCUT) and a masters degree in Geography, both from the University of California at Santa Barbara, and a bachelors degree in Economics with a minor in Interdisciplinary Computing and the Arts, from the University of California at San Diego. Ted has received several teaching and research awards, and contributed to many university and community service projects. Teds sources of research support have included the United States National Science Foundation, a NASA Earth and Space Science Fellowship, a Brython Davis Fellowship, Jack and Laura Dangermond Scholarships, the Andrew W. Mellon Foundation, and NASA California Space Grants.
