

Name: Ben Ratliff

Year: 2019

Major: Mechanical Engineering

Qualifications:

Assistant Vice President, Engineering Schools Council

BIG Event, Computer Analyst

Freshman Leadership Program, (PAL)

Platform: I would be a great Schools Council President because I have both the initiative and the experience to serve my college to the best of my abilities. I am passionate about forming a closer bond between the administration, students, and student organizations of the college. After serving this year as Assistant Vice President I have the skills and resources necessary for me to move into the position of President and take the College of Engineering to a new level and I look forward to the opportunity to achieve these goals.
