International Journal of Chemical Engineering and Applications

CONTENTS

Volume 1 Number 2, August 2010

Experimental Studies on Hydrodynamics of a Cyclone Separator Employed in a Circulating Fluidized Bed…….123
K. M. Pandey and M. Ray

Recent Advances in Experimental and Numerical Analysis of Combustor Flow Fields in Supersonic Flow Regime……132
K.M.Pandey and A.P. Singh

Chemical Engineering Education in Nigeria:Challenges and Prospects. ……..138
Owolabi, R.U and Rafiu, L.M

Transit Monitoring of Residual Chlorine in Awe-Oyo Area of Nigeria Water Township Supply…….143
Owolabi, R.U and Azeez, L.A

Countercurrent Extraction of 2,3-Butanediol…….147
Dr. Sadhana Vishwakarma

Characterization of CDO Thin Films Prepared By SILAR Deposition Technique……151
M. Mahaboob Beevi,M. Anusuya and V.Saravanan

Dezincification of Epoxy Coated Brass in Cochin Estuary, India…….155
A. Mathiazhagan, Rani Joseph and K. P. Narayanan

Dynamic Modeling and Simulation of Catalytic Naphtha Reforming……...159
H.M.Arani, S.Shokri and M.Shirvani

Design of Multivariable Neural Controllers Using a Classical Approach…….165
Seshu K. Damarla and Madhusree Kundu

A Novel Approach For Sensor Noise Elimination In Real Time Process……..173
K.Umasuresh and K.Suresh Manic

CFD Analysis of Conical Nozzle for Mach 3 at Various Angles of Divergence with Fluent Software……..179
K.M. Pandey and A.P. Singh

New Xylopyranoside From The Rhizomes of Cyperus Scariosus……..186
Shachi Sahu, Jagdamba Singh and Shiv Kumar

Recovery of Biological Products in Aqueous Two Phase Systems……191
Karnika Ratanapongleka

Poly(3,4-ethylendioxythiophene) and Poly(N-methylpyrrole) Clay Exfoliated Nanocomposites……..199
Mohsen Mirzaei

A Fuzzy Expert System for Converting Process Flow Diagrams to Piping and Instrumentation Diagrams…….206
Behnam Baloochy and Ramin Bozorgmehry
