

# Science and Society Courses

02/16/17

EFFECTIVE SPRING 2015: All approved courses satisfy all 3 learning goals and may be taught by any instructor. For courses taken prior to spring 2015, please refer to the spreadsheet of formerly approved courses effective through fall 2014.

- At least 6 credit hours of Science and Society Courses must be completed
- Students must receive a grade of C or better in course used to satisfy the Science and Society requirement
- At least 3 credit hours must be from upper division courses (numbered 300-499)
- One Science and Society course may be used to fulfill one requirement in the major, minor, or related area. That course may also be used to satisfy the “literacy & critical Inquiry (“L”) general studies requirement and no more than two Awareness Areas (“C,” “G,” “H”). The second Science and Society course can only be used to satisfy the Literacy requirement or two Awareness Areas. Science and Society courses cannot be used to satisfy general studies requirements other than Literacy or the awareness areas.
- Courses listed under omnibus (194, 294, 394, 494) or special topics course numbers (e.g., ENG 469) must match the course title shown on this list to be used for the Science and Society requirement.

PLEASE NOTE: The courses below reflect courses that were scheduled to be taught as of the date in the upper right hand corner of this list. Please check the online Schedule of Classes and work with your academic advisor to determine the best choice of courses for you. Because we cannot continuously update the list some courses may fill or be cancelled as the registration period progresses.
