Aufgaben

The innovations of tomorrow require ideas today. This is where we get to the heart of our business the bus. Work with us to create the next generation of vehicles which will set new standards in comfort, safety and aesthetics for many years to come. Design entire product lines from scratch. Involvement in mechanical, optical, electronic, prototype and design activities and their implementation in processes. Ensure design models come to fruition. Develop prototypes - the list is endless. Our motto is "interior is always IN". And so are the opportunities.

Your tasks include:

- Design and development of interior lighting systems for vehicles.
- Propose & evaluate designs based on regulations, specifications and customer requirements. Electronic/optical expertise in terms of parts and testing is an added advantage.
- Support project in achieving Quality Gate targets. Project management ensuring workload, timeline, quality and deliveries.
- Take responsibility for technical decisions taken in the team.
- Ensure effective communication with central departments (electronic design, style department, central pre-development department) in Germany.

Qualifikationen

For the international trainee program CAReer we expect:

- A solid university degree (ideally master's degree)
- First professional work experience (18 months obligatory with a bachelors degree)
- Excellent study results
- Several months of experience abroad

- Excellent English language skills along with good knowledge of German and Turkish

Furthermore for this position you should have the following qualifications:

- You have completed or are about to complete a degree in Mechatronics or Electrical Engineering
- A major in Electronics Development, Automotive Electronics, Lighting Engineering, Optic Engineering, or Interiors/Seats is preferred
- Preferably knowledge in CATIA/Siemens NX, Optical Analyse Software, Cadence (PCB Design)

You also need to convince us with your personality: We expect a bold and independent mindset, curiosity and a desire for change, openness and the highest possible standards of integrity. You enjoy working in an international working environment and you possess a high degree of mobility and flexibility. You show a pragmatic and organized approach to work and finally, a high level of motivation to take on and enjoy management responsibility.
