KEY SDAP 2.1, MR 3.0, SDAP 2.0

There is more than one way to show the same kind of pattern.

The suns and stars make a pattern. The pattern is sun, star, sun, star, sun, star, sun, star, sun, star, sun, star.

You can show the pattern with shapes.

Each pattern has one unit that repeats.

Find the pattern. Draw shapes to show it another way.

Writing and Reasoning Chan made this

pattern , , , , , . He says the next cube in the pattern is . Is he correct?

Explain why or why not.
