

GLORY

Project Management Services

Professional Services

Glory can help your business reduce your project time line, save money from contracting costs and deploy Glory machines more efficiently.

Project Management Services

Through a tailored strategy and the precise expertise of an industry leader with three distinct offerings:

- Equipment Deployment Management
- Project Management Services
- Project Management Office

With these three offerings, Glory can manage installs, relocations, removals or even construction work. Glory can also manage projects that your business does not have the bandwidth for or even setup a PMO to manage several of your projects as needed.

Your Glory representative will work with your business to decide which offering would be appropriate for your specific needs. These offerings are à la carte and you can decide what we control!

Discover how your company can benefit from Glory Advisory services. Contact us at info@uk.glory-global.com or speak to your Glory sales representative.

As the global industry leader in cash automation, Glory has developed four pillars of value enhancing professional services with the needs of our customers in mind. With these professional services, Glory can help your business quickly and efficiently achieve the full value of your cash automation initiatives.

Glory will meet your challenges and exceed expectations using our four pillar approach:

Project Management Services
Manage projects to achieve the desired goals of your organisation.

Advisory Services
Obtain the research analytics, best practices, technology strategies and more to ensure the best experience.

Technology – Software Solutions
Deploy software effectively to ensure that you maximise your technology investment.

Training
Train your employees with professionals to make the installation run smoothly and to get immediate post installation support.
