Whether you are a full time project manager or just starting your career in a project management role, JMU's Project Management Certificate is designed to provide professionals with the skills to successfully plan and manage corporate projects and procedures. Our non-credit certificate program provides professionals with the skills and knowledge of running successful projects, giving them a competitive edge within the marketplace. The program thoroughly explores the inner and outer workings of project logistics, management, constraints, risks and execution necessary to deliver projects within the desired scope. Individuals who earn their project management certificate will have the expertise to execute successful projects.

Course Curriculum and Materials

JMU's Project Management online program includes all required course materials. Course materials provide an in-depth exploration of the five knowledge domains and 10 Knowledge Areas tested on the PMP exam.

5 Knowledge Domains (Process Groups)	10 Knowledge Areas	
1. Initiating the Project	• Integration Management	• Resource Management
2. Planning the Project	• Scope Management	• Communications Management
3. Executing the Project	• Schedule Management	• Risk Management
4. Monitoring and Controlling the Project	• Cost Management	• Procurement Management
5. Closing the Project	• Quality Management	• Stakeholder Management

Note: A copy of the PMBOK 6 guide is **not** included. If you are a PMI member, the PMBOK 6 guide is available for download free of charge at www.pmi.org/pmbok-guide-standards. You may also purchase the printed guide.

Attendance/Successful Completion Credit

In order to successfully complete the course and earn the certificate, students must attend all instructor-led class sessions and complete all assignments.

Project Management is approved for 3.5 CEUs (35 contact hours) through JMU Outreach & Engagement and provides the 35 hours of training required to take the PMP® certification exam. Course tuition does not cover registration for the PMP certification exams. For more information regarding the exam requirements please visit the Project Management Institute website – www.pmi.org.
