

## CORONAVIRUS INFORMATION

---

The medical community is focused on preparation efforts regarding any potential impacts of Coronavirus (COVID-19) to ensure the safety of our patients, physicians, colleagues and visitors. Therefore, per CDC recommendations, we are implementing a screening process for visitors coming into our clinic. Please review the following questions. If you answer yes to one or more of these questions, we ask that you to not come in and please reschedule your appointment.

1. Do you currently have: cough, fever, rash, runny nose, muscle aches, sore throat?
2. In the last month, have you had CLOSE CONTACT or been in the same room with a person known to have Coronavirus?
3. In the last month, have you traveled outside the country? If yes, where? We are taking these proactive measures in an abundance of caution to remain a safe place to work and provide care.

Thank you for your understanding.

The PIWH Team
