Clean Fuel. Better Life.

Petroleum Products Pipeline between India and Nepal

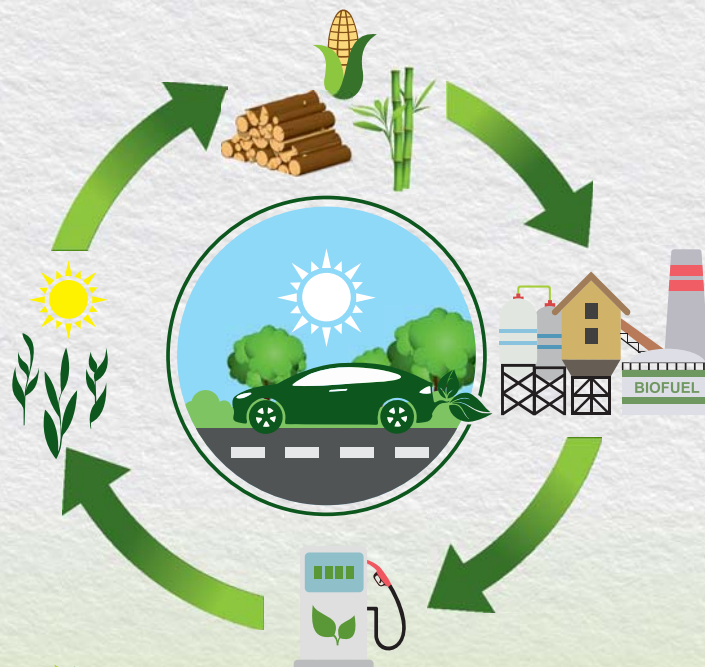

The first transnational product pipeline of 69 km between India and Nepal (Motihari – Amlekhganj) to supply 1.3 MMTPA of petroleum products per annum to Nepal has been completed.

India's PM Narendra Modi & Nepal's PM KP Sharma Oli
at the Joint Press Meet in April 2018.

Biofuels

Government has enhanced procurement price of Ethanol for Ethanol Supply Year 2019-20. Government has also allowed production of Ethanol from sugar and sugar syrup to enhance availability of Ethanol for EBP Programme. Increased Ethanol blending in petrol has many benefits, including reduction in import dependency, support to agricultural sector, more environment-friendly fuel, lesser pollution and additional income to farmers.

Finalisation of Bid Documents under revised Hydrocarbon Exploration and Licencing Policy (HELP)

Government has finalised bid documents comprising Modalities for Operationalisation of revised OALP, Notice Inviting Offer and Model Revenue Sharing Contract under revised Hydrocarbon Exploration and Licencing Policy. The 4th bid round has been launched under the new policy framework on 27th August 2019.

Single licence for E&P of conventional and non-conventional hydrocarbon resources.

Marketing & Pricing Freedom-major incentive for investment.

OALP (Open Acreage Licencing Policy): Allow investors to select their own area (block) for bidding.

Simple, Easy, No-cost Recovery & Revenue Sharing Model. Reduced royalty rate for offshore blocks.

55 blocks of 59,282 Sq.Km. offered under first round.

The second round of EoI finished on 15th May, 2018.

110 e-bids were received.

The third round of EoI has started.

Import of Bulk LPG from Bangladesh to India

The project is reflective of the Prime Minister's vision of 'Neighbourhood First' in the context of promoting infrastructure for energy security and connectivity. The LPG supply from Bangladesh is expected to ease the availability of LPG in the Northern States and boost performance under the *Ujjwala* programme.

Pipeline length
1500 km
Estimated Cost
₹6000 Cr

Pipeline	LENGTH KM
Guwahati - Numaligarh	250
Guwahati - Silchar	300
Silchar - Agartala	250
Silchar - Imphal	200
Silchar (Penai Sagar) - Aizawl	200
Numaligarh (Behali) - Itanagar	100
Numaligarh - Deemapur	100
Siliguri-Gangtok	100
Total	1500

Deepening Energy Engagement with Russia

India's energy engagement with Russia, the largest investor in India's hydrocarbon sector, has been further strengthened with the announcement of a long-term hydrocarbon cooperation framework covering a five-year period during the visit of Prime Minister to Russia during 4-5 September 2019. The hydrocarbon engagements with Russia will cover the entire value chain of both oil & gas sector, and thus help strengthen India's energy security.

Sh. Dharamendra Pradhan meeting with Leonid Mikhelson, CEO & Chairman, Novatek- Russia's.

Enhancing oil and gas recovery from existing nomination fields

ONGC and OIL have issued Notice Inviting Offer (NIO) for bidding out 66 small and marginal fields in the last week of June, 2019 to infuse capital and technology. Bids are to be submitted online up to 20th December, 2019 by prospective bidders.

Aim

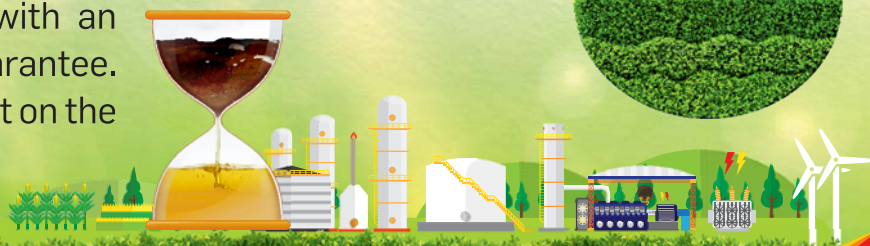

- Monetising hydrocarbon resources
- Boost domestic production of oil & gas

DSF Policy Bid Round II approved

- 66 discovered small fields
- Estimated hydrocarbon reserves of 194.65 MMT Oil and Oil Equivalent Gas

Expression of Interest (EoI) for making bio-diesel from used cooking oil

With a view to promote bio-fuels and reduce import dependency and carbon footprints, an Expression of Interest (EoI) has been invited by all three Oil Marketing Companies (OMCs) to procure bio-diesel which is to be made from unhealthy Used Cooking Oil (UCO), with an assured price and assured offtake guarantee. The EoI has been floated on 10th August on the occasion of World Bio-Fuel Day.
