What's Included

The *Making Meaning*® program blends print and digital components that support the classroom teacher in planning, delivering, and assessing comprehension and vocabulary instruction.

Print Components

Teacher's Manual

The Teacher's Manual provides detailed, easy-to-follow lesson plans that clearly and concisely guide teachers through each day's instruction. The lessons offer several point-of-use features that support teachers' implementation of the program, such as Facilitation Tips for classroom routines and "just-in-time" professional development videos.

Assessment Resource Book

This book contains assessment forms and instructions that teachers can use to regularly monitor the progress and needs of individual students and the whole class.

Reading Assessment Preparation Guide (grades 3–6)

This guide contains lessons to prepare students for a standards-based reading comprehension assessment.

Authentic Children's Literature

Each classroom package includes a set of carefully selected, grade-appropriate trade books to use as read-alouds.

Vocabulary Teaching Guide

This guide contains weekly lessons that build students' vocabularies by teaching words taken directly from *Making Meaning* read-alouds.

observe

Student Response Book (grades 1–6)

One per student, this book coordinates with specific lessons and provides selected read-aloud texts and excerpts, writing activities, a reading journal, and a reading log.

Picture Cards (grades K–1)

Word Cards (grades K–2)

Pocket Chart (grades K–2)

Picture and word cards are included for each vocabulary word introduced to provide support for the words' meanings. A pocket chart is included to make it easy to display picture cards and word cards during a lesson.

Digital Components

Digital Teacher's Set

This is a collection of digital versions of the following printed teacher's materials:

- Teacher's Manual
- Vocabulary Teaching Guide
- Assessment Resource Book
- Reading Assessment Preparation Guide (grades 3–6)

It offers embedded professional development video clips and includes direct links to lesson-specific whiteboard activities, the CCC Learning Hub, and the CCC ClassView™ assessment app.

CCC ClassView Assessment App

This online app allows for electronic recording, sorting, synthesizing, and reporting of assessment data for individual students and the whole class.

NOTE: Libraries of alternate read-aloud books for reteaching lessons and libraries of suggested books for comprehension strategies practice are available. See pages 32–33 for more information.

CCC Learning Hub

The CCC Learning Hub is a repository of digital resources, such as interactive whiteboard activities, assessment forms, reproducibles, and professional development media.

Technology Tutorials

Found on the CCC Learning Hub, these tutorials support teachers in integrating technology elements into classroom lessons.

Interactive Whiteboard Activities

The program includes activities to use with an interactive whiteboard or to print and display using a projection device.
