## Programs

### Children

The children's program at MennoCon19 is sure to be one that engages the mind and body as children will be active in their own convention experience. Children can expect to engage in biblical storytelling, music making, community building, creation making and partaking in recreation activities of all sorts. Children will also have an opportunity to do their own service project in Kansas City and take a special field trip around the city. The list can go on and on as the week is sure to be filled with the many ways we can and are walking with Jesus.

### Junior Youth

The junior youth program will include a variety of activities. The group will meet each morning and spend the day together. Junior youth will worship with everyone each morning and evening. Between those times they will dig deeper into scripture, participate in a servant project, and spend time in both the rec. hall and exhibit hall. The junior youth participants will have a great opportunity to spend time with other junior youth from across the denomination as they grow closer in their walk with Christ.

## Programs

### Squads

This is a new element exclusively for the high school youth! Squads will take place after lunch each day and offer a wide variety of activities for youth to participate in.
