### Preparing for Disclosure & Solar Flash Events – Corey Goode at Cosmic Waves

[Dr Michael Salla](#) on April 16, 2019

What follows are the key elements in Corey Goode’s two presentations at the [Cosmic Waves seminar](#) in Kealahou, Hawaii on April 9 and 11. Goode made important predictions about how the disclosure process is going to play out, how to prepare for an imminent solar flash (aka micronova) event that would be in the range of an X-100 solar flare, and our entering an End Times era. It is helpful to make a record of such predictions in order to validate other aspects of Goode’s pioneering secret space program (SSP) testimony, which has had an impact far beyond the UFO and exopolitics communities.

### Biofield Tuning: How Sound Therapy Can Unlock the Hidden Causes of Illness

04/22/2019 By [Stillness in the Storm](#)

**(John P. Thomas)** I was eating a totally organic diet or better. I had very limited exposure to EMF and microwave radiation. I avoided chemical toxins. I took dozens of supplements. I did everything I could to be healthy. But regardless of my efforts, I just didn’t feel physically and emotionally strong. I was 62 years old and my health was failing. I went to see an alternative minded physician about a year ago and he suggested biofield tuning. He told me that biofield tuning helps people get to the root of their illnesses – the energetic cause – and can unblock the physical and emotional dysfunctions that I had accumulated since the beginning of my life.

### VT Science: Was the Universe Solved and Super-Classified?

By [VT Editors](#) - April 23, 2019

VT Challenges Reality: We publish the secrets of a century, secrets like this one, and everything should change. But it doesn't...

The notes here are in response to observations tied to Keshe related projects. VT personnel are active in working with the Keshe Foundation on the delivery of several unique technologies related to not just energy production and medical care but touch on basic physics and space flight as well.

## Operation Gladio: The Unholy Alliance Between the Vatican, the CIA, and the Mafia

04/24/2019 By [Stillness in the Storm](#)

**(Paul L. Williams)** On the hot summer morning of Aug. 2, 1980 a massive explosion ripped apart the main waiting room of the Bologna railway station. Eighty-five people were killed and hundreds more injured. Though at first blamed on Italy's legendary urban guerrillas, The Red Brigades, it soon emerged that the attack had, in fact, originated from within the 'deep state' of the Italian government itself.

## US envoy for Venezuela Abrams heckled by Code Pink activist

Fri Apr 26, 2019 PressTV

**A pacifist has disrupted a speech by US Special Representative for Venezuela Elliot Abrams during an event against the government of President Nicolas Maduro.**

Abrams was outlining Washington's anti-Venezuela policy at the Atlantic Council Center think-tank in Washington, DC on Thursday when the Code Pink activist mounted a chair and raised a placard that read "no coup in Venezuela" while calling the lecturer a "war criminal".

## US troops kill Iraqi policeman, injure two others while 'transferring' Daesh terrorists: Report

Fri Apr 26, 2019 PressTV

**American troops have killed an Iraqi policeman and injured two others while allegedly transferring a group of Daesh Takfiri terrorists in the country's northern province of Kirkuk.**

The incident happened after American troops were deployed to the region by helicopter in an attempt to airlift the terrorists to an undisclosed region, Iraq's Alahad television network reported on Friday.

### **All Lies About Global Warming DEBUNKED in One Article**

21-11-2018 Humansarefree

Everything you’ve been told about global warming, climate change and carbon dioxide by the mainstream media — and mainstream “science” — is an outright lie. Far from being a dangerous poison, carbon dioxide is a miraculous life-giving nutrient that plants need to thrive. [Rising carbon dioxide is actually helping “green” the planet](#), as any legitimate science already knows. Without CO2 in the atmosphere, nearly all life on the planet would collapse, including both human life and plant life.

Now, an eye-opening interview has emerged that features István Markó, an organic chemistry researcher and professor at the Université catholique de Louvain. He was recently interviewed by Grégoire Canlorbe, a science journalist and out-of-the-box thinker.

### **What is Consciousness?**

[Stillpoint Spaces Berlin](#) 26 apr. 2019

We wake up every morning, after a good night’s sleep, and all of a sudden gain this magical relationship with reality which makes it so personal - our consciousness. But is the fact that we live our lives as conscious beings so obvious? How can we explain the difference between the experience of consciousness and that of a virus for instance? Do animals have consciousness? In this workshop, we have addressed the most contemporary philosophical perspectives on the question of consciousness. Some of which view consciousness as a

unique and unexplainable phenomenon, while others provide cutting edge models for the understanding of the way we humans consciously perceive the world. Addressing this issue from several perspectives, we have tried to understand the “trick” behind the “magic” of consciousness. Leon Brenner 2017, ziet nog geen bewustzijn na de dood.

Pursuant to the US administration’s latest wave of confrontational policies against Tehran, Google recently moved to stifle the YouTube platform of Iran’s English-language Press TV news and documentary network, which has long sought to give voice to those peoples and communities across the world whose stories do not achieve due attention by the mainstream media, mainly in the United States.

### **IMF: Iran hard getroffen door sancties, torenhoge inflatie**

29-04-2019 NOS

Iraniërs kunnen dit jaar te maken krijgen met een inflatie van zeker 40 procent, als gevolg van de aangescherpte Amerikaanse sancties. Dat is de boodschap van het Internationaal Monetair Fonds (IMF) in zijn jongste rapport over de economieën in het Midden-Oosten en Centraal-Azië.

### **Solving the Autism Crisis**

[Gordon Duff, Senior Editor](#) - April 28, 2019

VT has begun an investigation into the millions of new autism cases in the US and Canada and have found some startling information we feel should be shared. Who was really fighting autism and what happened to him?

We have found massive funding tied to covert efforts to deflect reporting or even diagnosis, to stifle research into not just autism but cancers and a number of neurological disorders we now believe are tied to glycoposphates and GMO foods.

### **Ignorance and Russophobia**

[Gordon Duff, Senior Editor](#) - April 28, 2019

The roots of Russophobia run deep in the US. They go much further than censored or slanted media or political game playing in Washington.

What has to, or at least should be accepted is that Russophobia is a belief system, just like a religion, but with no spiritual nature, no holy prophets but resembling the worst of religion.

Russophobia is a religion of hate that no one understand or will acknowledge the root cause of. Perhaps we might want to take a look.

### **The High Priestess**

April 28, 2019 The Portal - Cobra

On April 15th, 2019, full mysteries of the Goddess were finally anchored on the surface of this planet in a certain group, after centuries of suppression and after the last mysteries of Isis were completely discontinued at the Isis temple of Philae in the year 457 of the current era.

Many of those cathedrals were housing statues of Black Madonnas, which are actually Christianized versions of statues of dark skinned Isis, sometimes nursing her child, Horus. The first building put on fire on April 15<sup>th</sup> was the Notre Dame church in Paris. But the Rose windows, the symbol of the Sisterhood of the Rose, have survived the fire:
