CONTENTS

1. Characteristics of Uttarakhand and its Implications for Renewable Energy
   1.1. State of Uttarakhand
      1.1.1. Introduction
      1.1.2. Topography and Climate
      1.1.3. Demography
      1.1.4. Economic Activities
      1.1.5. Energy Scenario
         1.1.5.1. Electricity
         1.1.5.2. Energy for Cooking and Lighting
         1.1.5.3. Pattern of Household Expenditure on Energy (Fuels and Light)
   1.2. Renewable Energy Resource Availability in Uttarakhand
      1.2.1. Solar Radiation
      1.2.2. Wind
      1.2.3. Biomass
      1.2.4. Hydro
   1.3. Critical Areas for Development of Uttarakhand
      1.3.1. Energy
      1.3.2. Water
      1.3.3. Agriculture
      1.3.4. Tourism
      1.3.5. Roads
   1.4. Implications for Renewable Energy Applications in Uttarakhand
   1.5. Potential and Diffusion of DRESs in Uttarakhand
## CONTENTS (continued…)

1.6. Business Problem 33
1.7. Research Objective(s) 34
1.8. Organisation of the Thesis 35

### 2. Review of Barriers to the Dissemination of Decentralized Renewable Energy Systems

2.1. Introduction 36
2.2. Identification and Classification of Barriers to the Diffusion of DRESs 37

#### 2.2.1. Technical Barriers 37

- 2.2.1.1. Resource Availability 39
- 2.2.1.2. Technology – Design, Installation and Performance 39
- 2.2.1.3. Skill Requirement for Design and Development, Manufacturing, Installation, Operation and Maintenance 41

#### 2.2.1.4. Potential Remedial Measures 42

#### 2.2.2. Economic Barriers 43

- 2.2.2.1. Cost 46
- 2.2.2.2. Market 48

##### 2.2.2.2.1. Market Structure 48
##### 2.2.2.2.2. Fuel/Energy Pricing 49
##### 2.2.2.2.3. Incentives/Taxes/Duties 51
##### 2.2.2.2.4. Purchasing Power and Spending Priorities 52
##### 2.2.2.2.5. Financial Issues 52
##### 2.2.2.2.6. Awareness and Risk Perception 53
CONTENTS (continued…)

2.2.2.3. Potential Remedial Measures 54

2.2.3. Institutional Barriers 59
  2.2.3.1. Policy and Regulatory 60
  2.2.3.2. Infrastructure 60
  2.2.3.3. Administrative 63
  2.2.3.4. Potential Remedial Measures 63

2.2.4. Socio-cultural Barriers 68
  2.2.4.1. Societal Structure, Norms and Value System 68
  2.2.4.2. Awareness and Risk Perception 70
  2.2.4.3. Behavioral or Lifestyle Issues 71
  2.2.4.4. Potential Remedial Measures 72

2.2.5. Environmental Barriers 74
  2.2.5.1. Potential Remedial Measures 75

2.3. Concluding Remarks 76

  3.1. Introduction 78
  3.2. Frameworks for Estimation of Potential of using DRESs in Uttarakhand 78
    3.2.1. Solar Energy based DRESs 79
      3.2.1.1. Domestic Solar Water Heaters 79
      3.2.1.2. Solar Home Systems 81
      3.2.1.3. Solar Lanterns 82
      3.2.1.4. Dish Type (Paraboloid) Solar Cookers 84
      3.2.1.5. Solar Dryers 85
      3.2.1.6. Solar PV Pumps 86
## CONTENTS (continued…)

3.2.2. Biomass based DRESs  
   3.2.2.1. Family Size Biogas Plants  
   3.2.2.2. Improved Biomass Cookstoves  

3.3. Results and Discussion  
   3.3.1. Domestic Solar Water Heaters  
   3.3.2. Solar Home Systems  
   3.3.3. Solar Lanterns  
   3.3.4. Dish Type Solar Cookers  
   3.3.5. Solar Dryers  
   3.3.6. Solar PV Pumps  
   3.3.7. Family Size Biogas Plants  
   3.3.8. Improved Biomass Cookstoves  

3.4. Concluding Remarks  

   4.1. Theory of Diffusion of Innovation  
      4.1.1. Innovation  
      4.1.2. Communication Channels  
      4.1.3. Time  
      4.1.4. Social System  
   4.2. Time-trend of Diffusion of DRESs in Uttarakhand  
   4.3. Technology Diffusion Models  
   4.4. Estimation of Time Required for the Cumulative Diffusion of DRESs to Reach their Estimated Utilization Potential  
   4.5. Concluding Remarks
5. **Assessment of Barriers Faced by Decentralized Renewable Energy Systems Adopters and Non-Adopters in Uttarakhand**
   
   5.1. Introduction 126
   5.2. Sample Design for Survey 126
   5.3. Results of Survey 127
   5.4. Concluding Remarks 136

   
   6.1. Introduction 137
   6.2. Methodology 137
      
      6.2.1. Expressions for Measures of Financial Performance 138
         
         6.2.1.1. Discounted Payback Period 138
         6.2.1.2. Net Present Value 139
         6.2.1.3. Internal Rate of Return 139
         6.2.1.4. Levelized Cost of Useful Energy 139
      
      6.2.2. DRES Specific Expressions for Estimation of Monetary Value of Annual Benefits 140
         
         6.2.2.1. Domestic Solar Water Heater 140
         6.2.2.2. Family Size Biogas Plant 141
         6.2.2.3. Improved Biomass Cookstove 142
         6.2.2.4. Paraboloid (Dish) Type Solar Cooker 142
         6.2.2.5. Solar Lantern 143
         6.2.2.6. Solar Home System 144
         6.2.2.7. Solar PV Pump 144
         6.2.2.8. Solar Dryer 145
   
   6.3. Results and Discussion 146
CONTENTS (continued…)

6.3.1. Domestic Solar Water Heater 148
6.3.2. Family Size Biogas Plant 153
6.3.3. Improved Biomass Cookstove 155
6.3.4. Dish Type (Parabolic) Solar Cooker 157
6.3.5. Solar Lantern 160
6.3.6. Solar Home System 163
6.3.7. Solar PV Pump 164
6.3.8. Solar Dryer 167
6.4. Concluding Remarks 170

7. Conclusions and Recommendations 172

7.1. Conclusions 172
7.2. Limitations of the Study and Recommendations for Further Work 176
