Mathematica®
FOR STUDENTS

Installation Guide for Sites

VERSION 7.0.1

The instructions in this booklet can be used for new installations and upgrade installations of *Mathematica for Students* 7 on student-owned machines

Machine-Specific Passwords

WINDOWS

STEP 1: Run the installer on the DVD labeled "Wolfram *Mathematica for Students* 7 for Windows/Mac OS X/Linux x86".

STEP 2: You will be asked in which directory *Mathematica for Students* should be installed, which components to install, and if you want to have a shortcut created in the **Start** menu. At each screen, click **Next** to accept the defaults, or make any necessary changes and then click **Next**.

STEP 3: A summary of your settings will be displayed. Click **Back** to modify these settings. Click **Install** to start the installation.

STEP 4: After the files are copied to your hard drive, check the **Launch Wolfram Mathematica** box and click **Finish**. *Mathematica for Students* will start.

STEP 5: Select **Single-Machine License** in the password dialog box. Enter your name, organization name, and license number (exactly as it is given to you by your site administrator). Your license number is in the format *Lxxxx-xxxx*. Click **OK**.

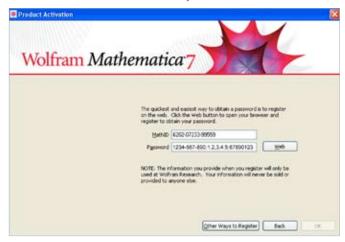

Your license number must be entered exactly as given to you by your site administrator. An example is shown here.

STEP 6: Your machine's MathID is displayed. Click **Web** to open your web browser and go to **register.wolfram.com**. Enter the license number and select **I want to register a product and generate a password**.

STEP 7: Enter your MathID number and contact information. After completing your registration, your password will be sent to you via email.

STEP 8: Enter your password in *Mathematica for Students* and click **OK**. Your password is in the format *xxxx-xxx-xxx:x,x,x,x:x:xxxxxxxx*. *Mathematica for Students* is now ready for use.

Your password must be entered exactly as given to you. An example is shown here.

# Machine-Specific Passwords

MAC OS X

STEP 1: Insert the DVD labeled "Wolfram *Mathematica for Students* 7 for Windows/Mac OS X/Linux x86". A new window appears on your screen.

STEP 2: Drag the *Mathematica* icon from this window to the location on your hard drive where you want to install *Mathematica for Students*.

STEP 3: After the files are copied to your hard drive, double-click the *Mathematica* icon on your hard drive. *Mathematica for Students* will start.

STEP 4: Select **Single-Machine License** in the password dialog box. Enter your name, organization name, and license number (exactly as it is given to you by your site administrator). Your license number is in the format *Lxxxx-xxxx*. Click **OK**.
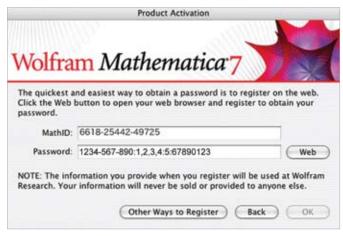

STEP 5: Your machine's MathID is displayed. Click **Web** to open your web browser and go to **register.wolfram.com**. Enter the license number and select **I want to register a product and generate a password**.

Your license number must be entered exactly as given to you by your site administrator. An example is shown here.

STEP 6: Enter your MathID number and contact information. After completing your registration, your password will be sent to you via email.

STEP 7: Enter your password in *Mathematica for Students* and click **OK**. Your password is in the format *xxxx-xxx-xxx:x,x,x,x:x:xxxxxxxx*. *Mathematica for Students* is now ready for use.

Your password must be entered exactly as given to you. An example is shown here.

LINUX

Note: To install Mathematica for Students on Linux, you may need root privileges.

STEP 1: Mount the DVD labeled "Wolfram *Mathematica for Students* 7 for Windows/Mac OS X/Linux x86".

STEP 2: Change the directory to `/cdrom/Unix/Installer` and type `./MathInstaller` to run the installer.
Note: The exact location of the DVD mount point might be different for your platform.

STEP 3: Press **Enter** to accept the default installation directory for *Mathematica for Students*, or type in a new location and then press **Enter**.

STEP 4: After the files are copied to your hard drive, press **Enter** to accept the default location in which to copy the executable scripts, or type in a new location and then press **Enter**.

STEP 5: Type `1` to select **Single-Machine License** and press **Enter**.

STEP 6: Your machine name and MathID number are displayed. Go to **register.wolfram.com**, enter the license number (exactly as it is given to you by your site administrator), and select **I want to register a product and generate a password**. Your license number is in the format *Lxxxx-xxxx*.

STEP 7: Enter your MathID number and contact information to complete your registration. Your password will be sent to you via email. Your password is in the format *xxxx-xxx-xxx:x,x,x,x:x:xxxxxxxx*.

STEP 8: Enter your name, organization name, license number, and password. Press **Enter**. *Mathematica for Students* is now ready for use.

NOTE: If you do not have your password at the time of installation, quit the installer. When you are ready to enter your password, launch *Mathematica* and follow the steps below.

1. Enter your name, organization name, and license number (exactly as it is given to you by your site administrator). Your license number is in the format *Lxxxx-xxxx*. Click **OK**.

2. Your machine's MathID is displayed. Enter your password in *Mathematica for Students* and click **OK**. Your password is in the format *xxxx-xxx-xxx:x,x,x,x:x:xxxxxxxx*. *Mathematica for Students* is now ready for use.

OTHER INSTALLATIONS

ORGANIZATION-OWNED MACHINES FOR STUDENT USE

This guide should be used when installing *Mathematica for Students* on student-owned machines. Please refer to the *Mathematica Installation Guide for Sites* and use the *Mathematica* 7 media to install *Mathematica* on organization-owned machines for student use.

EMPLOYEE-OWNED MACHINES

Home-use licenses for *Mathematica* and other licensed Wolfram Research products are available to install on machines that are personally owned by employees at your organization. Employees may request a new *Mathematica* home-use license, or an upgrade or password extension for an existing home-use license, by entering your campus site license number and completing the form at **www.wolfram.com/siteinfo/homeuse**.
