Notes

1: Prerequisite for all other products
4: Requires Control System Toolbox
5: Requires MATLAB Coder
7: Requires DSP System Toolbox
8: Requires Financial Toolbox
9: Requires Fixed-Point Designer
10: Requires Image Processing Toolbox
11: Requires MATLAB Compiler
13: Requires Optimization Toolbox
19: Requires Signal Processing Toolbox
21: Requires Simulink
23: Requires Statistics and Machine Learning Toolbox
24: Requires Symbolic Math Toolbox
26: Available only on 32-bit Windows, 64-bit Windows
28: Not available on Mac
29: Requires Communications System Toolbox

Prices are per unit, listed in Sterling (GBP) (exclusive of VAT), and are subject to change without notice.

Products are available on Windows, Linux, and Mac OS® X unless otherwise indicated. For information on currently supported hardware and operating systems, visit mathworks.com/support/sysreq/

Please contact your sales representative for pricing on enterprise-based license options.

MathWorks Products and Prices United Kingdom Academic Quantity • September 2015

£

QUANTITY PRICING

To compute price, multiply the unit price by the number of installations.

INDIVIDUAL, GROUP, & CONCURRENT LICENSES

Quantity	MATLAB	Simulink	Tier-1[1]	Toolboxes[2]
2-4	338	188	338	135
5-9	289	145	289	116
10-24	210	105	210	84
25-49	139	70	139	56
50-99	101	51	101	40
100+	75	38	75	30

CLASSROOM LICENSES

An initial Classroom license purchase requires a minimum quantity of 10.

Quantity	MATLAB	Simulink	Tier-1[1]	Toolboxes[2]
10–24	47	47	47	19
25–49	32	32	32	13
50–99	23	23	23	9
100+	17	17	17	7

ORDERING INFORMATION

Visit *mathworks.co.uk/store*

Contact MathWorks directly
UK & Ireland   +44-1223-226-700

Contact Information. All MathWorks licenses require an administrator to serve as the main source of communication for the license. If your order includes a new license, please provide the name, address, phone and e-mail for the contact who will be responsible for administering the license.

Money-Back Guarantee. If you are not completely satisfied with your purchase, call within 30 days for a full refund.

Notes

1. Tier 1 products are Embedded Coder, Fixed-Point Designer, HDL Coder, HDL Verifier, LTE System Toolbox, MATLAB Coder, MATLAB Compiler, MATLAB Compiler SDK, Model-Based Calibration Toolbox, Polyspace Bug Finder, Polyspace Code Prover, SimBiology, SimPowerSystems, Simulink Code Inspector, Simulink Coder, Simulink Design Verifier, Simulink Desktop Real-Time, Simulink PLC Coder, Simulink Real-Time, Simulink Test, Simulink Verification and Validation, Stateflow, SystemTest, Vision HDL Toolbox

2. "Toolboxes" refers to remaining products. See previous pages for a complete listing of products.

Prices are per unit, listed in Sterling (GBP) (exclusive of VAT), and are subject to change without notice.

Products are available on Windows, Linux, and Mac OS® X unless otherwise indicated. For information on currently supported hardware and operating systems, visit mathworks.com/support/sysreq/

Please contact your sales representative for pricing on enterprise-based license options.

ACADEMIC LICENSING

MathWorks is pleased to offer MATLAB®, Simulink®, and other MathWorks products at reduced prices to degree-granting educational institutions. The use of products licensed to institutions at Academic License pricing is restricted to on-campus computing facilities that are used solely in support of classroom instruction and research activities of students, faculty, and staff.

Institutions cannot use the products for commercial purposes. Research and development divisions and centers of universities, government agencies, and other not-for-profit organizations do not qualify for Academic License pricing. MathWorks offers reduced prices to degree-granting educational institutions as a service and asks your help in ensuring that the practice is not abused.

LICENSING OPTIONS

Individual: The Individual license is intended for use by a single named user or on a single computer. It offers a choice between two activation types: Standalone Named User and Designated Computer.

Group: The Group license is intended for locations where an administrator manages a group of Individual licenses with the Designated Computer activation type. This license option requires a minimum of two licenses.

Concurrent: The Concurrent license is intended for use by a specified number of concurrent users to run the product on any computer that is connected to a single FlexNet® license manager. Installation of the products is limited to institution-owned computers or computers personally owned by faculty, research, and academic staff.

Classroom: Classroom licenses are restricted for use in on-campus instruction labs used solely for classroom instruction of students. A Classroom License offers a choice between a Group license with a Designated Computer activation type or a Concurrent license. Course instructors are granted the right to use a copy of the software for course preparation only. Use of the products for any other purposes, such as research by faculty and staff, is not allowed.

ACTIVATION TYPES

Standalone Named User: The products are used by a single named user. The products can be activated on up to four different computers, provided that the products are only accessible to and used by that single named user.

Designated Computer: The products may only be activated and used on a single, designated computer, provided the products are only operated from that computer's console by only one Licensed User at any given time.

LICENSE TERM

The Individual, Group, Concurrent, and Classroom license options are licensed on a PERPETUAL basis, providing the right to use the software indefinitely.

SOFTWARE MAINTENANCE SERVICE

The first year of Software Maintenance Service is included with new product licenses. You can continue uninterrupted service in subsequent years by renewing your MathWorks maintenance subscription annually.

Your MATLAB® subscription must be current in order to add new products or additional users to a license and to receive the latest product versions. The annual subscription fee is calculated based on the products installed on your configuration and the license option acquired.

Software Maintenance Service provides:

- Access to New Features: Increase your effectiveness and efficiency by using new product features delivered in general releases twice each year.

- Direct Technical Support: Resolve technical issues and get technical solutions through telephone, e-mail, and Web assistance provided by specialized support engineers.

- Online License Management: View license details, manage user permissions, activate software, get passcodes for previous releases, and obtain order status

- Ability to Add New Products: Extend your computing environment by adding products to your license at any time. A MathWorks maintenance subscription gives you access to the latest release to ensure compatibility with new versions of MathWorks products.

- Bug Fixes: Receive bug fixes via twice-yearly general releases and periodic Web updates, as well as interim solutions from Technical Support

MAINTAIN YOUR INVESTMENT

Because MathWorks ensures compatibility among products in the same release, a maintenance subscription ensures that you have access to the latest release and can add products to your license. If your subscription has lapsed three months (90 days) or more you incur back maintenance charges plus a reinstatement fee to receive the latest product versions. Staying subscribed is the most cost-effective way to get the latest advances and all the support you want.

INELIGIBLE PROGRAMS

Not all Programs are eligible for deployment, compilation, distribution, or Web access. For Programs that are ineligible, see *mathworks.com/ineligible_programs*.

ADDITIONAL FEES

The fees for the License are determined based upon the country where all Licensed User(s) are principally located. Additional fees may apply to a transfer of the License, or the principal location of any Licensed User, to another country.

MathWorks Training Courses   United Kingdom Academic • September 2015

			Regular	Academic Price
MATLAB Fundamentals				
MLBE	MATLAB Fundamentals	3 days	1,350	675
MLBE-A	MATLAB Fundamentals for Automotive Applications	3 days	1,350	675
MLFA	MATLAB for Financial Applications	3 days	1,350	675
MLBE-O	MATLAB Fundamentals for Aerospace Application	3 days	1,350	675
MLVI	MATLAB for Data Processing and Visualization	1 day	500	250
MLPR	MATLAB Programming Techniques	2 days	1,000	500
MLCO	Object-Oriented Programming with MATLAB	2 days	1,000	500
MLGU	Building Interactive Applications in MATLAB	1 day	500	250
MLEX	Interfacing MATLAB with C Code	1 day	500	250
MLPC	Parallel Computing with MATLAB	2 days	1,000	500
MLEM	MATLAB to C with MATLAB Coder	2 days	1,000	500
MATLAB Application Training				
MLSG	Signal Processing with MATLAB	2 days	1,000	500
MLIP	Image Processing with MATLAB	2 days	1,000	500

MLCM	Communication Systems Design with MATLAB	1 day	500	250
MLST	Statistical Methods in MATLAB	2 days	1,000	500
MLAA	MATLAB for Asset Allocation	1 day	500	250
Simulink Training				
SLBE	Simulink for System & Algorithm Modeling	2 days	900	450
MBDF	Implementing a Model-Based Design Workflow	1 day	450	225
SLMB	Simulink Model Management and Architecture	2 days	1,000	500
SLVV	Verification and Validation of Simulink Models	1 day	500	250
SLHL	Generating HDL Code from Simulink	2 days	1,000	500
SLEX	Integrating Code with Simulink	1 day	500	250
SLSF	Stateflow for Logic-Driven System Modeling	2 days	900	450
SLRT	Fundamentals of Code Generation for Embedded Applications	1 day	450	225
SLEC	Embedded Coder for Production Code Generation	3 days	1,500	750
SLBE-G	Signal Processing with Simulink	3 days	1,350	675
Simulink Application Training				
SLBE-A	Simulink for Automotive System Design	2 days	900	450
SLSF-A	Stateflow for Automotive Applications	2 days	900	450
SLCT	MATLAB and Simulink for Control Design Acceleration	2 days	1,000	500
SLCM	Communication Systems Modeling with Simulink	1 day	500	250
SLBE-O	Simulink for Aerospace System Design	2 days	900	450
SLPM-S	Physical Modeling of Multidomain Systems with Simscape	1 day	500	250
SLPM-M	Physical Modeling of Multibody Mechanical Systems with SimMechanics	1 day	500	250
SLPM-P	Physical Modeling of Electrical Power Systems with SimPowerSystems	1 day	500	250
PSCC	Polyspace Code Prover for C/C++ Code Verification	2 days	1,000	500
SLZQ	Programming Xilinx Zynq SoCs with MATLAB and Simulink	3 days	1,350	675

TRAINING AT YOUR SITE

MathWorks may offer advanced or customized courses at your location upon request. For pricing and availability, please contact your sales representative or send e-mail to *training@mathworks.co.uk*.

Discounts do not apply.

PUBLIC TRAINING

Throughout the year, MathWorks offers training courses at our facility in Cambridge. We offer beginner, advanced, and application-specific courses.

Visit *mathworks.co.uk/training* for course information.

TRAINING CREDITS

Training Credits can be purchased in advance in increments of GBP 50 and can be applied to the cost of any course, including on-site training. Credits are valid for one year from the date of purchase.

ONLINE TRAINING

Our instructor-led and self-paced online offerings expand MathWorks curriculum to provide the flexibility of working in your own surroundings.

You can take most of our courses interactively, without leaving your office. Self-paced courses include:

• MATLAB Fundamentals - 90 days of access - 150

• MATLAB Programming Techniques - 90 days of access - 125

• MATLAB for Data Processing and Visualization - 90 days of access - 75

For a full listing of our online offerings, *visit mathworks.co.uk/training*

CERTIFICATION

MathWorks offers two levels of certification to help you achieve your goals:

• Certified MATLAB Associate - 100

• Certified MATLAB Professional - 500

HOW TO ORDER

• Visit *mathworks.co.uk/store* to purchase public training courses online via credit card.

• Visit *mathworks.co.uk/training* to get more information and request training at your site.

• Call 44-1223-226-700

• Send e-mail to *training@mathworks.co.uk*

Please check *mathworks.co.uk/training* for course dates and descriptions.
