No representation, warranty or undertaking, express or implied, is made as to and no reliance should be placed on, the fairness, accuracy, completeness or correctness of the information or the opinions contained herein. This presentation is not to be relied upon in any manner as legal, tax, regulatory, accounting or any other advice and shall not be used in substitution for the exercise of independent judgment and each person made aware of the information set-forth hereof shall be responsible for conducting its own investigation and analysis of the information contained herein.

The information contained herein is confidential and is intended for use only by the intended recipient and does not carry any right of publication or disclosure. This presentation is not intended for U.S investors nor U.S. persons. Neither the presentation nor any copy of it may be taken or transmitted into the United States of America, its territories or possessions (collectively, the “United States”) directly or indirectly. Any failure to comply with these restrictions may constitute a violation of U.S. or other securities laws, as applicable.

This document includes the following non-IFRS-EU financial measures: underlying earnings before tax, return on equity and Cost/Income ratio. Return on equity is a ratio using a non-IFRS-EU measure and is calculated by dividing the net underlying earnings after tax (applying a nominal tax rate) by average IFRS equity excluding the revaluation reserve. Cost/Income ratio is calculated as operating expenses divided by operating income as defined in the Company's underlying earnings before tax measure. There is no IFRS financial measure that is directly comparable to the Cost/Income ratio. Aegon Bank believes that these non-IFRS-EU measures, together with the IFRS-EU information, provide meaningful supplemental information about the underlying operating results of the Company's business including insight into the financial measures that senior management uses in managing the business.

No action has been or will be taken by the Company in any country or jurisdiction that would, or is intended to, permit a public offering of securities in any country or jurisdiction where action for that purpose is required. In particular, no Securities have been or will be registered under the U.S. Securities Act of 1933, as amended (the “Securities Act”) or with any securities regulatory authority of any state or other jurisdiction of the United States and securities may not be offered, sold or delivered within the United States or to US persons except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and applicable state securities laws and may only be sold outside of the United States to persons who are not US persons in reliance on Regulation S under the Securities Act and otherwise in compliance with all applicable laws and regulations in each country or jurisdiction in which any such offer, sale or delivery of securities is made. The Company does not intend to register or to conduct a public offering of any securities in the United States or any other jurisdiction. Strategic

- Aegon Bank is core to the strategy of Aegon the Netherlands. Aegon’s ambition is to scale-up Aegon Bank for the future
- Aegon Bank has the ambition to grow its balance sheet to EUR 20 billion and to reach both a Cost/Income ratio of 60% and a return on equity of 9% in 2022

Why Senior Non-Preferred

- The National Resolution Authority (NRA) has imposed a minimum requirement for own funds and eligible liabilities (MREL) on Aegon Bank
- The issuance of Senior Non-Preferred (SNP) debt is in line with the growth ambition of Aegon Bank and will result in a more diversified mix of funding instruments in terms of secured/unsecured and retail/wholesale

Highlights

- Strong capital and liquidity position, with a total capital ratio of 21.9% and liquidity coverage ratio of 209% per 4Q 2018
- Aegon Bank has more than 600k banking clients with in excess of EUR 10 billion in savings per 4Q 2018
- Aegon Bank issued four covered bonds from 2015 to 2017 with a total outstanding amount of EUR 2.25 billion

1. Capital generation excluding market impact and one-time items after holding funding & operating expenses
2. Assuming markets move in line with management’s best estimate, no material regulatory changes and no material one-time items other than already announced restructuring programs
3. To align closer to definitions used by peers and rating agencies, Aegon has retrospectively changed its internal definition of adjusted shareholders’ equity used in calculating return on equity for the group, return on capital for its units, and the gross financial leverage ratio. As of the second half of 2016, shareholders’ equity will no longer be adjusted for the remeasurement of defined benefit plans.

Capital and liquidity position

Strong capital and liquidity position exceeding regulatory requirements

**Capital position**

(per 4Q 2018)

- **Total capital ratio**: 21.9%
- **CET1 ratio**: 21.6%
- **Leverage ratio**: 4.4%

**Liquidity position**

(per 4Q 2018)

- **Liquidity Coverage Ratio (LCR)**: 209.0%
- **Net Stable Funding Ratio (NSFR)**: 141.0%
- **Asset Encumbrance Ratio (AER)**: 19.4%

**Key Points**

- Strong Total capital ratio (21.9%) exceeding the bank’s current Overall Capital Requirement (OCR)\(^1\) of 17.3%
- Solid CET1 ratio in place to ensure sufficient capitalization
- Leverage ratio is comfortably above the current 3% regulatory requirement in the Netherlands

- The LCR and NSFR are both comfortably above the current regulatory requirements; 100% is required for both ratios
  - Sizeable buffer in place to withstand potential (extreme) outflows
  - Stable long term funding profile
- Limited asset encumbrance; mainly related to covered bonds

---

\(^1\) The Overall Capital Requirement is the sum of the Pillar 1 Requirement (P1R; 8.0%), the Pillar 2 Requirement (P2R; 6.6%) and the Combined Buffer Requirements (CBR; 2.7%)
Capital ratios improved in 2018

The bank maintains a strong capital position, both on a risk weighted and unweighted basis

- Total capital ratio increased despite growing TREA
- In 2018 Aegon contributed EUR 50 million of CET1 capital to Aegon Bank for growth of the bank balance sheet
- Aegon will inject EUR 75 million of CET1 capital in 2019
- Growing TREA due to growing mortgage portfolio and consumer & small business loans portfolio
- Aegon Bank applies the Standardized Approach to calculate minimum capital requirements
- Leverage ratio improved as a result of the EUR 50 million CET1 capital contribution in 2018

Total capital ratio is total capital divided by Total Risk Exposure Amount
Leverage ratio is Tier 1 capital divided by a measure of non-risk weighted assets

Financial information based on statutory annual reports, which differs from segment results for Banking reported by the Group for Aegon the Netherlands. The difference is partly explained by the elimination of intra-group transactions and application of IFRS 9 (adopted per 2018 by Aegon Bank; for 2017 IAS 39 was applied) accounting principles at Aegon Bank legal entity level.
Impact of IFRS 9 accounting principles

Growing consumer & small business loans portfolio increases impairment losses

Changed carrying amounts
- The implementation of IFRS 9 (as of January 1, 2018) caused a total remeasurement loss, net of tax, of EUR 8.1 million
- This remeasurement loss was recognized in the opening balance of revaluation reserves and retained earnings

Increase in impairment losses
- As opposed to IAS 39, IFRS 9 requires loan loss provisioning at recognition of the loan (IFRS 9 Stage 1), which is based on the expected future credit losses of these loans
- The increase in impairment losses in 2018 compared to 2017 is mainly caused by the growing consumer & small business loans portfolio
  - Net growth of the consumer & small business loans portfolio was EUR 483 million, from EUR 833 million per December 31, 2017 to EUR 1,316 million per December 31, 2018
- Hence, the bank’s growing consumer & small business loans portfolio directly increases the loan loss provisioning (i.e. increasing the impairment losses)
- The consumer & small business loans portfolio is expected to stabilize after 2019

- Strong focus on cost control and expense reduction, targeting a Cost/Income ratio of 60% in 2022
- Expense reductions to be achieved by integrating processes and systems to maximize synergies between the Aegon Bank brand and Knab
- 2017 and 2018 results reflect substantial investments made to build the online Knab banking platform

- Realized RoE over 2017 and 2018 reflect the scale-up phase of Aegon Bank
- Balance sheet growth and expense reduction initiatives with a target RoE of 9% in 2022

Aegon Bank manages its business based on a non-IFRS-EU financial measure, namely underlying earnings before tax.

1) Cost/Income ratio is calculated as Operating expenses divided by Operating income as defined in the banks’ underlying earnings before tax measure
2) Return on Equity is calculated as Underlying earnings after tax (applying a nominal tax rate) divided by average IFRS equity excluding the revaluation reserve

Resolution planning at Aegon Bank level

Aegon Bank will comply with the (as of yet non-binding) indicative MREL target

**Resolution requirements setting**

- For Aegon Bank the National Resolution Authority (NRA) stated that the bail-in will form a part of the resolution strategy with a Single Point of Entry (SPE) approach at Aegon Bank level
- Aegon Bank will comply with the (as of yet non-binding) indicative MREL target through own funds and Senior Non-Preferred only
- The Senior Non-Preferred notes are subject to the resolution framework and are only relevant to Aegon Bank

**Minimizing resolution risk**

- Aegon Bank currently has a strong capital position and a recovery plan in place
- Aegon Bank N.V. is part of a group and can rely on capital injections (as in 2018 and 2019) as part of the normal course of business and in adverse market conditions, subject to market conditions and regular governance in line with capital management policy

Comments

- Based on the 2018 default SRB formula² and the bank’s current capital requirements the indicative MREL target is 33.35%
- The EUR 500 million SNP transaction exceeds the bank’s current MREL needs, as the bank anticipates future growth of the bank and therefore ensures sufficient bail-in capacity going forward
- The indicative MREL target is subject to change as a result of TREA development, future SREP requirements and regulatory developments in Dutch legislation

¹ LAA (P1 + P2R + CBR) + RCA (P1 + P2R) + MCC (CBR - 125bps), where LAA: Loss Absorbing Amount, RCA: Recapitalization amount, MCC: Market confidence charge
