6th Edition from 27th – 30th march 2019

Why The Cap Spartel film festival?

Our challenge is essentially based on the image of Tangier and cap spartel film festival as a city often associated with diversity and identity and cross - cultural pluralism including all religions and beliefs .

It is in this perspective that the Cap Spartel Film Festival presents itself as a meeting place with moviemakers here and elsewhere.

Our goal is to forge cultural and cinematographic values between different cultures and ethnicities.

Our program is supposed to be a platform offering performance, training and discussions with professionals from Morocco and India as our guest of honor.

We offer a dense and varied program with shows training, film culture and joy to share with us also.
