

Living Literature and Literature Circle

Living Literature *grades 4-8~*

In this 'book club' class, students will collaborate together with the teacher to make selections of fun and relevant books from around the world. We will read chosen books at a comfortable pace, aloud in class and at home, as we engage in various hands-on projects related to the literature. There will also be a wide selection of beautiful picture books!

Literature Circle *grades 7-12~*

Together with their teacher, older students will select engaging literature from across the genres and around the world to read together in class and at home. We will discuss, debate, and dissect books in light of their various characters, settings and themes. We will collaborate together on some fun projects to share with other students.
