"A coherent look at
India's environmental history"
ANIRUDH NAIR, *Sanctuary*

NATURE AND NATION

ESSAYS ON ENVIRONMENTAL HISTORY

Acc. No : 36670

Call No : 304.20954 RAN-M

Writing India's environmental history is not easy. The country's territorial vastness, geographical complexity, and unusual biodiversity make the task difficult. Relatively few scholars have shown the historical range and intellectual depth required to tackle the area compellingly and with sophistication. Mahesh Rangarajan is among the foremost scholars in this field. The papers and books he has written or edited over more than two decades have helped craft...

MANAGING PORTFOLIO CREDIT RISK IN BANKS

Arindam Bandyopadhyay

Acc. No : 35998

Call No : 332.10681 BAN-A

Credit risk is the risk resulting from the uncertainty that a borrower or a group of borrowers may be unwilling or unable to meet their contractual obligations as per the agreed terms. It is the largest element of risk faced by most banks and financial institutions. Potential losses due to high credit risk can threaten a bank's solvency. After the global financial crisis of 2008, the importance of adopting prudent risk management practices has increased manifold...

There has never been a better time to be an ordinary investor. With more opportunities, lower costs and a more level playing field than ever before, you really can go head to head with the professionals. But there remains one big difference between Wall Street and the individual investor: technique and experience. Super investors provides both in a new way. It takes an in-depth look at 20 of the best investors in the last 200 years...

THE LAWS OF GLOBALIZATION

AND BUSINESS APPLICATIONS

PANKAJ GHEMAWAT

Acc. No : 35941

Call No : 337 GHE-P

The Laws of Globalization and Business Applications employs a variety of empirical methodologies to establish two broad regularities that apply to international activity at the firm, industry, and country levels - the law of semi globalization and the law of distance - and explores some of their implications for business. Part I presents evidence in support of the law of semi globalization at the country and the business levels historically and up to the present. Part II performs an analogous function regarding the second law of globalization...

The Logic of Sharing

Indian Approach to
South-South Cooperation

Sachin Chaturvedi

Acc. No : 36006

Call No : 338.9154 CHA-S

India's development cooperation programmes reflect the broad principles that inform Indian foreign policy in general. In essence, they reflect sovereign equality and belief in friendly relations with all countries, particularly India's neighbours coupled with opposition to colonialism and a continued commitment to the amplification of human freedom. Mahatma Gandhi underlined that while the juxtaposition of peace and prosperity is not a contrivance for establishing moral prospects, the two conditions are indissolubly linked...

Case Studies of
Action Research

Neeraja Raghavan

Contributing Editor
Vineeta Sood

Foreword by
Arthur Eisenkraft

451

Acc. No : 36725

Call No : 378.5451 RAG-N

The Reflective Teacher describes the action research undertaken by teachers at the Azim Premji School in Dineshpur, Uttarakhand, to take a fresh look at their teaching practices, examining and identifying specific problems that they faced, and addressing many of these problems. Consisting of teachers documentation of their action research, classroom observations and facilitators' notes, the book also analyses case studies against the backdrop of the research of pioneers such as John Dewey and Donald Schon...

Toril Moi

Revolution of the Ordinary

LITERARY STUDIES AFTER WITTGENSTEIN, AUSTIN, AND CAVELL

Acc. No : 36726

Call No : 401 MOI-T

This book discusses the power of ordinary language philosophy—a tradition inaugurated by Ludwig Wittgenstein and J. L. Austin and extended by Stanley Cavell—to transform literary studies. Toril Moi demonstrates this philosophy's unique ability to lay bare the connections between words and the world, dispel the notion of literature as a monolithic concept and teach readers how to learn from a literary text. By using Wittgenstein's vision of language and theory, she considers theory's desire for generality doomed to failure and brings out the philosophical power of the particular case...

Undergraduate Physics

Matthew M. J. French

Acc. No : 35429

Call No : 530 FRE-M

This book aims to guide both the experimentalist and theoretician through their compulsory laboratory course forming part of an undergraduate physics degree. Some students will have left school believing that physics experiments never work . Designing and performing good physics experiments is a craft, it is a skill developed gradually over time. The thinking behind this book is to persuade students of the value and beauty within a carefully planned and executed experiment and help them to develop the skills to carry out experiments themselves...

APPLYING GRAPH THEORY IN ECOLOGICAL RESEARCH

MARK R. T. DALE

Acc. No : 35757

Call No : 577.072 DAL-M

Graph theory can be applied to ecological questions in many ways, and more insights can be gained by expanding the range of graph theoretical concepts applied to a specific system. But how do you know which methods might be used? And what do you do with the graph once it has been obtained? This book provides a broad introduction to the application of graph theory in different ecological systems, providing practical guidance for researchers in ecology and related fields...

Case-Control Studies

Ruth H. Keogh
and D. R. Cox

Acc. No : 34393

Call No : 614.4 KEO-R

The case-control approach is a powerful method for investigating factors that may explain a particular event. It is extensively used in epidemiology to study disease incidence, one of the best-known examples being Bradford Hill and Doll's investigation of the possible connection between cigarette smoking and lung cancer. More recently, case-control studies have been increasingly used in other fields, including sociology and econometrics. With a particular focus on statistical analysis, this book is ideal for applied and theoretical statisticians wanting an up-to-date introduction to the field...

Electronics for Electricians & Engineers

Ian R. Sinclair

Acc. No : 35437

Call No : 621.381 SIN-I

The rapidly changing technology of electronics has left many technicians requiring an urgent updating of their skills. The same problems have faced other engineers, who now require a knowledge of electronics to understand new developments in their own subjects. Hardly any part of modern life is untouched by electronics, and almost everyone working in engineering or science needs some understanding of electronics...

Raising the Curtain

Recasting Women Performers in India

Acc. No : 36722

Call No : 792.028082 SIN-L

Raising the Curtain, through the study of women performers in colonial and Independent India, problematises the question of gender and patriarchy. Women performers, being the most public women, unsettle the category of gender divided along castes, class, sexuality and the private/public paradigm. Women performers do not form a homogenous category; their roles, agency, issues, concerns and lives differ significantly because of their different social...

Call No : 894.8120 KUM-U

Why did autobiographical writings emerge in Kerala more than a century ago? What were the social, material, and cultural features that motivated individuals to write personal histories and memoirs? This book shows the complex ways in which private recollections, and the use of memory for loosely literary ends, also entailed the production of history by another name. Udaya Kumar analyses this period of social transformation to show the emergence of new resources for the self-relective writer...

The THEFT of INDIA

The European Conquests of India
— 1498–1765 —

ROY MOXHAM

Acc. No : 36884

Call No : 954 MOX-R

In the three centuries that followed Vasco da Gama's discovery of the sea route from Europe to India, European powers made a beeline for India's fabled riches, its spices, gold and gems. Though they ostensibly came for trade and commerce, and the thrill of discovering a new land, the lines between exploration and exploitation soon blurred. The Theft of India documents the intense rivalry for spoils that played out between the British, the French, the Dutch and the Portuguese, and the impact this had on the Indians. Roy Moxham's work, though, is no dry study of textual materials...
