This invaluable resource addresses emerging models of bilingual education such as two-way immersion and heritage language programmes, in addition to programme models that are limited to serving ELLs. Writing with vigor and a broad intellectual grasp, the contributors examine power struggles and ideological shifts in various social sectors where the public authority of religion has diminished, in particular education, science, law, and journalism. The perceptual quality of the models, the flexibility of the acquisition, and the cost of the system are three driving forces in the search for new methods. This book examines the Soviet military statements since Gorbachev came to power, which indicate that the Soviet military, for the most part, does not oppose Gorbachev's retrenchment from the Third World. Finally, they will know which information needs to be included in their publications. Digging Up Trouble: Environment, Protest and Open-cast Mining Behind the public's hope of effective action by governments on environmental issues lies a complex terrain of conceptual confusion, conflicts of interest and philosophical dispute.
