

English for Engineers Seminar

Technical Fine-Tuning for Engineers

Join us as we focus on English for those in Mechanical, Electrical, and Civil Engineering at our **2 week** seminar.

You will spend **15 intensive hours** (1 1/2 hours a day) with a knowledgeable ESL instructor honing your English language competence.

You will...

- Improve pronunciation and vocabulary through targeted focus of field-specific language
- Build confidence in technical conversation-making
- Increase vocational reading comprehension

Proudly offered by the Intensive English Language Institute as an extracurricular study course, open to Tyler community members, current International students, delegations, and IELI students.
