Whether you are a mentor or a student, we are so pleased that you've chosen to participate in the Rice School of Architecture (RAMP). The relationships formed can have an incredible impact on the career of the student. Below we have listed some suggested experiences that you can share together over the course of the year. We ask that you complete two per semester for the best experience. Remember, it is up to the student to initiate these interactions! Use your first meeting to set dates and times and then stick to them!
