

## SELECTED BIBLIOGRAPHY.

The following guide to books on the history of construction and building engineering bibliography is compiled by Bill Addis and based on the bibliography in his book:

*Building: 3000 years of design Engineering and Construction* published by Phaidon in 2007.

It was compiled in 2006 and will be updated as soon as practically possible.

ABRAMS, Duff, "Design of Concrete Mixtures", Bulletin 1, Structural Materials Research Laboratory of Lewis Institute of Chicago, 1918.

ACHE, Jean Baptiste, Éléments d'une histoire de l'art de bâtir. Paris: Éditions du Moniteur des Travaux Publics, 1970.

ACKERMAN, J. S., " 'Ars sine scientia nihil est' - Gothic Theory of Architecture at the Cathedral of Milan", Art Bulletin, Vol.XXXI, 1949, pp.84-111.

ACKERMANN, Kurt, Building for Industry. London: Watermark, 1991.

ACKERMANN, M. E., Cool Comfort: America's romance with air-conditioning. Washington: Smithsonian Institution, 2002.

ACLAND, James J., Medieval Structure: the Gothic Vault. Toronto : University of Toronto Press, 1972.

ADAM, Jean-Pierre, Roman Building: materials and techniques. London: Batsford, 1994.

ADDIS, W. (Bill), "A history of using models to inform the design and construction of structures." Pp.9-44 in HUERTA 2005.

ADDIS, W., "Free will and determinism in the conception of structures", Journal of the International Association for Shell and Spatial Structures, Vol.38 No.2, 1997, pp.83-89. Also in HANGLIETER, 1996.

ADDIS, W. (Bill), Creativity and Innovation: the Structural Engineer's Contribution to Design. Oxford: Architectural Press, 2001.

ADDIS, W. (Bill), The Art of the Structural Engineer. London: Artemis, 1994.

ADDIS, W. Structural Engineering - the Nature of Theory and Design. Chichester: Ellis Horwood, 1990.

ADDIS, W., entries on Christopher Wren (pp.799-802) and Robert Hooke (pp.334-337) in SKEMPTON, 2002.

ADDIS, W., Structural and Civil Engineering Design Vol.12 of series 'Studies in the History of Civil Engineering'. Aldershot: Ashgate (Variorum), 1999.

AGRICOLA, Georgius (Georg BAUER), De re metallica, Basel, 1556. English translation by H.C. & Lou Hoover, London: Mining Magazine, 1912; reprinted New York: Dover Publications, 1950.

AIA (Association for Industrial Archaeology), issues of Industrial Archaeology Review dedicated to Textile Mills, Vol.X, No.2, Spring 1988 and Vol.XVI, No.1, Autumn 1993. Royal Commission on the Historical Monuments of England & Association for Industrial Archaeology.

ALBERTI, L.B., De re aedificatoria (Florence, 1485; translated by Leoni, J., (1775) as The ten books of architecture, reprinted Dover Publications, 1986).

ALI, Mir, Art of the Skyscraper: the genius of Fazlur Khan. New York: Rizzoli Publications, 2001.

ANDERSON, James C., Roman Architecture and Society. Baltimore & London: John Hopkins University Press, 1997.

ANDERSON, Stanford (Ed.), Eladio Dieste: Innovation in Structural Art, New York: Princeton Architectural press, 2004.

ASPRAY, William (Ed.), Computing before computers, Ames, Iowa: Iowa State University, 1990. (Available on Web at <http://ed-thelen.org/comp-hist/CBC.html>)

BACH, K., BURKHARDT, B. & OTTO, F. (1988) Seifenblasen / Forming Bubbles, IL18, Institut für leichte Flächentragwerke, University of Stuttgart.

BALDI, Bernardino, In Mechanica Problematica Exercitationes. Mainz, 1621.

BANHAM, Reyner, A concrete Atlantis. London: MIT Press, 1986.

BANHAM, Reyner, The Architecture of the well-tempered environment London, Architectural Press 1969.

BANNISTER, Turpin C., "Bogardus revisited. Part I: The iron fronts; Part II The iron towers". Journal of the Society of Architectural Historians, XV, No.4, 1956, pp.12-22; ibid., XVI, No.1, 1957, pp.11-19. (Reprinted in THORNE, 2000)

BANNISTER, Turpin C., "The first iron-framed buildings". The Architectural Review, Vol.107, April 1950, pp.231-246.

BAUERSFELD, Walter, "Projection Planetarium and Shell Construction", Proceedings of the Institution of Mechanical Engineers, 1957, Reprinted in JOEDICKE 1963.
