

AJE 2015 Scholarly Publishing Report: China

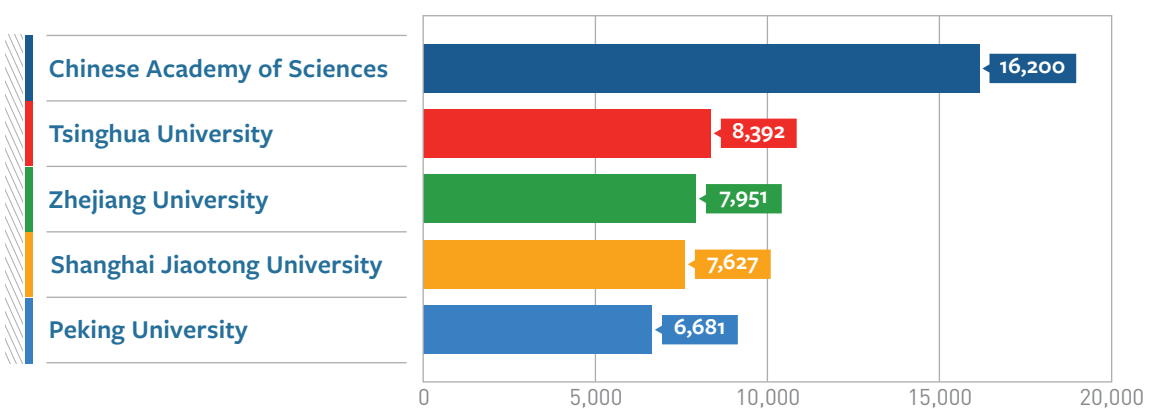

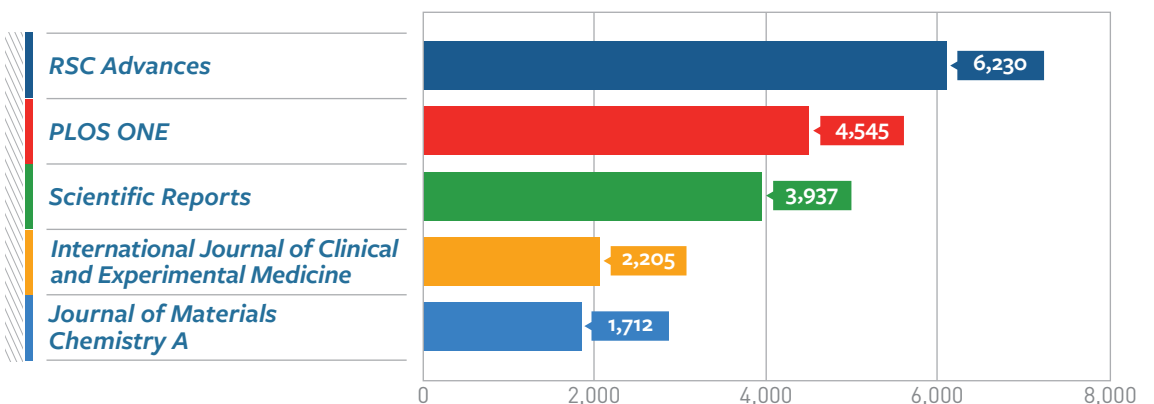

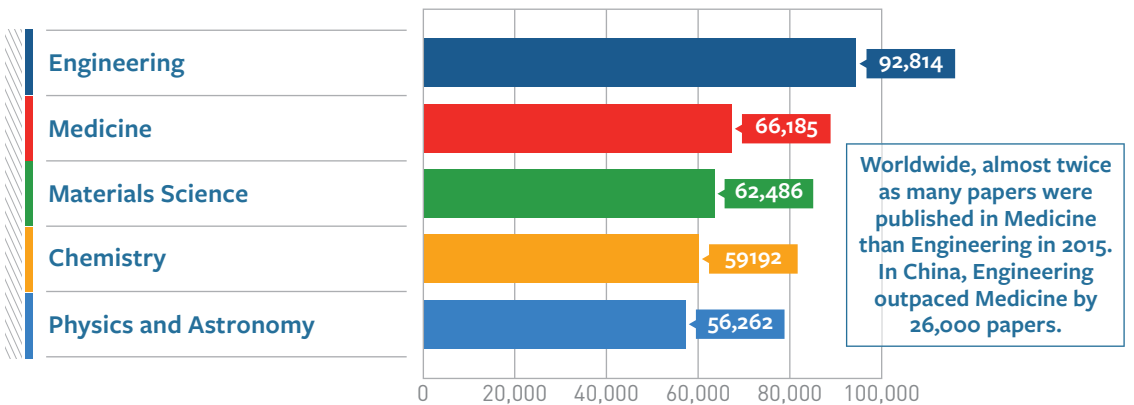

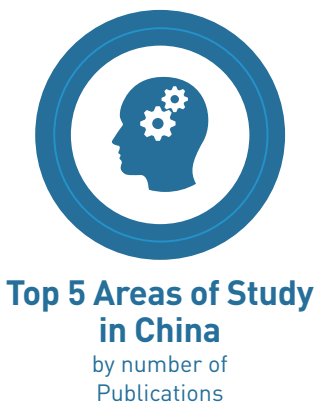

A brief look at Chinese research publication trends, popular areas of study, and the journals and institutions with the most publications.

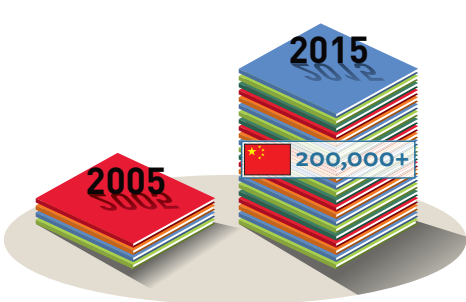

The number of papers published continues to grow as research programs expand worldwide.

Top Publishing Countries in 2015

1. United States | 2. China | 3. United Kingdom | 4. Germany | 5. India

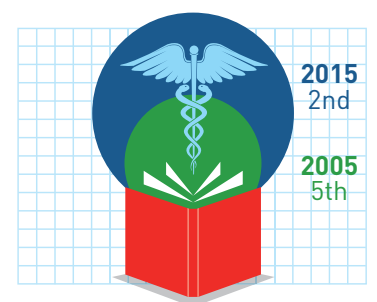

Looking Back: The Last Decade of Research Publishing in China

191% increase in publications, 2005 - 2015

China's robust growth in publication output was surpassed only by India among the top 10 research producers. Total output was exceeded only by the U.S.

Medicine papers ranked 5th in China in 2005, 2nd in 2015.

American Journal Experts (AJE) has helped thousands of Chinese researchers eliminate language barriers and get their work published in the world's best journals. Our editors are researchers themselves, so we understand the importance of publication and can help authors navigate the often-difficult publication process.
