JANUARY 2019

Congratulations Jim Vogel, President of Conestoga Tile, newest inductee into the CTDA Hall of Fame

During the annual Total Solutions Plus conference in October, Jim was recognized for his contributions and leadership in the CTDA and the Tile Industry. Since the formation of the CTDA in 1979 there hasn't been many years that a Conestoga Tile Executive has not served on the association's board of directors. To date, 26 people have been inducted into the Hall of Fame and two of those honored were Conestoga Tile Executives, Jack Vogel and Howard Pryor. This year we get to add Jim Vogel to that list.

Beyond leading the way for Conestoga Tile, Jim has also been actively involved in the tile industry. In 1994, Jim was asked to be a board member of CTDA and shortly after that he was asked to be the next treasurer. Jim jumped at the opportunity and began to build new financial reports to show more information on the performance of the association.

In 1996, Jim became the youngest president for the association. Also, Jim was the first 2nd generation family member to be honored with this role as his father was president in 1987. He continued to serve on the board in various positions until 2004.

Jim has also served on several manufacturers' distributor advisory committees. He also enjoyed presenting educational seminars at both Coverings and the CTDA management conference. He has also participated in a wide range of educational programs. All of these contributions leading to his 2018 induction into the CTDA Hall of Fame. Congratulations Jim!

We would also like to congratulate Steve Vogel, Co-owner and Vice President of Conestoga Tile. He is continuing the path of leadership in the Tile Industry by recently accepting the position of Vice President on the board of the CTDA. This will put Steve in line to become the next president of the association.
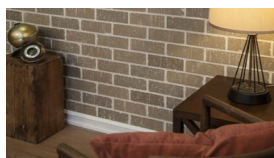

The Following Pricelists are included in this edition of the Trailblazer:

ARC – ARC is a supplier of curbless shower systems and accessories. In this pricelist we have added their newest base, ShuffleDEK. This base is ideal for laying large format tile without the need for valley cuts. Plus, the adjustable drain outlet allows installers to miss joists in most situations. ARC offers three different models to cover the most popular shower sizes. You will notice a price increase on most products in this pricelist.
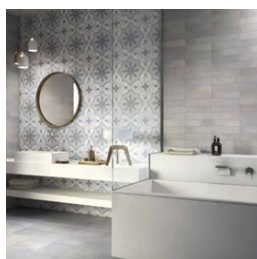

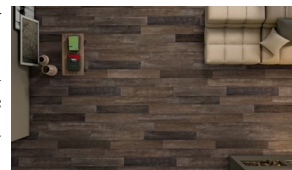

Lunada Bay Tile – This Lunada Bay pricelists includes a slight price increase on all products. We have also added all the products that were introduced in 2018. This includes the ceramic tile series Watercolor, Contourz their concrete line and two decorative glass lines, Origami Field and Textile. The newest introduction is a glass line, Tomei Modules. This series expands on their already popular Tomei series by bringing in larger format glass tiles. This series is inspired by modern architecture and created for residential and commercial walls. The Modular field tiles help to create tailored abstract patterns. The series is available in a soft color pallet of 11 different colors and two finishes. Stop in one of our showrooms to see all of the new series from Lunada Bay Tile.

Metropolitan – This manufacturer of unglazed quarry tile and pavers has added a new thin brick to their lineup. Royal Thin Brick is an unglazed brick veneer with a classic wire-cut texture. They are tumbled and distressed to give a worn appearance. Royal Thin Brick is available in ten colors and five blends. Other items in this pricelist received a slight price increase.

Pastorelli - We are adding a new series to our Pastorelli pricelist. Chester is a glazed porcelain wood look tile with a rustic feel. There are three color options each with a nice range of variation.

Standard – Exclusively shown in our showrooms, this vendor partner provides US inventoried imported products for prompt delivery. We have selected two new products, Gazzini Stat One and Gazzini Vintage. Stat One is glazed porcelain white marble look similar to Statuary Marble. It is available in three field tile sizes, two mosaics and a chair rail in both a polished and matte finish. Vintage is a colored aged concrete look available in two field tile sizes, two mosaic options, a chair rail and two 8" decorative field tile options. Visit one of our three showrooms to see these new lines.
