Intellectual Property Rights

IPRs essential or potentially essential to the present document may have been declared to ETSI. The information pertaining to these essential IPRs, if any, is publicly available for **ETSI members and non-members**, and can be found in SR 000 314: "*Intellectual Property Rights (IPRs); Essential, or potentially Essential, IPRs notified to ETSI in respect of ETSI standards*", which is available from the ETSI Secretariat. Latest updates are available on the ETSI Web server (<http://www.etsi.org/ipr>).

Pursuant to the ETSI IPR Policy, no investigation, including IPR searches, has been carried out by ETSI. No guarantee can be given as to the existence of other IPRs not referenced in SR 000 314 (or the updates on the ETSI Web server) which are, or may be, or may become, essential to the present document.

Foreword

This European Standard (Telecommunications series) has been produced by European Computer Manufacturers Association (ECMA) on behalf of its members and those of the European Telecommunications Standards Institute (ETSI).

The present document is one of a series of standards defining services and signalling protocols applicable to Private Integrated Services Networks (PISN). The series uses the Integrated Services Digital Network (ISDN) concepts as developed by ITU-T and conforms to the framework of standards for Open Systems Interconnection (OSI) as defined by ISO/IEC.

This particular EN specifies the Call Priority Interruption and Call Priority Interruption Protection Supplementary Services.

National transposition dates	
Date of adoption of this EN:	13 August 1999
Date of latest announcement of this EN (doa):	30 November 1999
Date of latest publication of new National Standard or endorsement of this EN (dop/e):	31 May 2000
Date of withdrawal of any conflicting National Standard (dow):	31 May 2000

Endorsement notice

The elements of ISO/IEC 15992 apply, with the following modifications:

NOTE: New or modified text is indicated using sidebars. In addition, underlining and/or strike-out are used to highlight detailed modifications where necessary.

Clause 3

Replace the first paragraph by:

The following documents contain provisions which, through reference in this text, constitute provisions of the present document.

- References are either specific (identified by date of publication, edition number, version number, etc.) or non-specific.
- For a specific reference, subsequent revisions do not apply.
- For a non-specific reference, the latest version applies.
- A non-specific reference to an ETS shall also be taken to refer to later versions published as an EN with the same number.

Insert the following normative references at the end of clause 3:

- [13] EN 300 171: "Private Integrated Services Network (PISN); Specification, functional models and information flows; Control aspects of circuit-mode basic services [ISO/IEC 11574 (1994) modified]".
- [14] EN 301 256: "Private Integrated Services Network (PISN); Specification, functional models and information flows; Call interception additional network feature [ISO/IEC 15053 (1997), modified]".
- [15] EN 301 657: "Private Integrated Services Network (PISN); Specification, functional models and information flows; Call handling additional network feature [ISO/IEC 15430 (1999) modified]".
- [16] ETS 300 256: "Private Integrated Services Network (PISN); Specification, functional models and information flows; Diversion supplementary services services [ISO/IEC 13872 (1995) modified]".
- [17] ETS 300 258: "Private Integrated Services Network (PISN); Specification, functional models and information flows; Path replacement additional network feature services [ISO/IEC 13863 (1995) modified]".
- [18] ETS 300 260: "Private Integrated Services Network (PISN); Specification, functional models and information flows; Call transfer supplementary services services [ISO/IEC 13865 (1995) modified]".
- [19] ETS 300 365: "Private Integrated Services Network (PISN); Specification, functional models and information flows; Call completion supplementary services services [ISO/IEC 13866 (1995) modified]".
- [20] ETS 300 387 (1994): "Private Telecommunication Network (PTN); Method for the specification of basic and supplementary services".
- [21] ETS 300 475-1: "Private Telecommunications Network (PTN); Reference configuration Part 1: Reference configuration for PTN eXchanges (PTNXs) services [ISO/IEC 11579-1 (1994) modified]".

Throughout the text of ISO/IEC 15991

Throughout the text of ISO/IEC 15991, replace references as shown in the table below:

Reference in ISO/IEC 15991	Modified reference
