

**Welcome** to the summer edition of Copyright News, a quarterly update from RightsDirect for licensees and anyone interested in copyright and content in the workplace.

### Introducing RightFind™

RightsDirect is excited to introduce RightFind™ content workflow solutions. These solutions provide you with the fastest way to find, share, and manage content. With the acquisition of Infotrieve, RightsDirect is now able to offer a powerful set of content and licensing solutions that leverage our rights licensing expertise with Infotrieve's advanced content workflow technology.

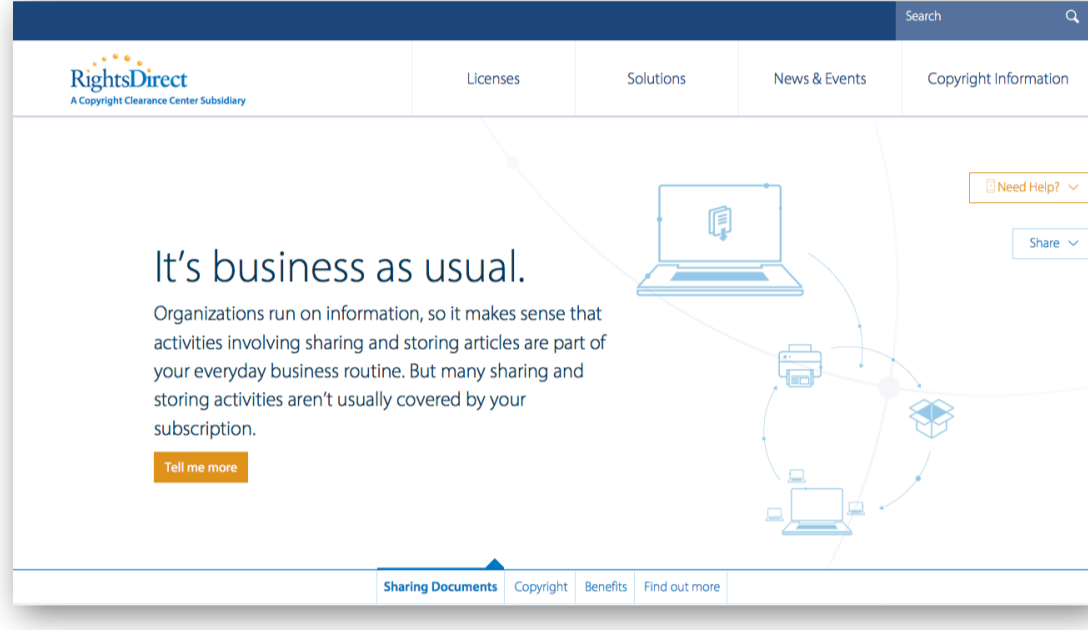

RightFind™ is the new name for the suite of solutions that includes products formerly known as Mobile Library, DirectPath, and Infotrieve Business Process Outsourcing services. The brand names have already been introduced within the software.

We will continue to make updates including brand changes throughout the summer. Please note that the rights advisory tool which comes with your RightsDirect Multinational Copyright License or VG WORT Digital Copyright License, is now called RightFind Advisor.

### Introducing RightFind™ XML for Mining

Life science companies rely on published information to fuel innovation. Unfortunately, the search for relevant articles among millions of publications takes time, as does getting permission to use content from multiple publishers. RightFind XML for Mining is designed to address this need by taking your text mining projects beyond abstracts. It gives you direct access to full-text content from multiple high-value publishers in a normalized XML format.

### 3 Reasons to Consider Text Mining

Over one million articles are being published every year. This is why life science companies are increasingly relying on text and data mining to gather insights from the vast amount of published information. [Download](#) our tip sheet today to learn how text and data mining can save your company money by enhancing R&D efficiency.

### Recent Webinars

#### The Pragmatic Text Miner

Watch the recording of our complimentary webinar: *The Pragmatic Text Miner* to learn about the text mining of biomedical literature, hear the challenges researchers face in building large collections of content to mine, and identify ways bioinformatics professionals can overcome those challenges. [Watch now.](#)

#### Copyright Challenges in a Global Environment
