## The Wiley Series of Encyclopedias in Criminology and Criminal Justice

Criminal justice and criminology continue to enjoy growth and broad popularity within both academic and scientific contexts. As the two major paradigms influencing the study of crime and justice continue to merge into a single combined discipline, major topical areas are becoming increasingly pronounced and distinct areas of research specialization.

The works published in *The Wiley Series of Encyclopedias in Criminology and Criminal Justice* will capture the evolution, growth, and increasing specialization that have transpired over the past two decades within the discipline. The titles in the series will provide: (1) broad and comprehensive topic coverage; (2) a multidisciplinary and international approach; and (3) longer entries for key topics as compared to other encyclopedias currently available, with contributions ranging from 1,500 to 5,000 words in length. Each encyclopedia in the series will provide coverage beyond US perspectives. As such, each title will integrate coverage of topics that will be meaningful both in the United States and around the world. The contributors for each encyclopedia will include authoritative scholars selected from multiple countries. These encyclopedias will serve students and advanced researchers alike as both a ready source for immediate familiarization on specific and related (cross-referenced) topics as well as a “first-look” starting point for deeper inquiries.

J. Mitchell Miller, Series Editor
