

RISK MANAGEMENT FOR ENGINEERS DESIGNED BY ENGINEERS

WHO IS GREYLING, A DIVISION OF EPIC:

Greyling, a division of EPIC is a top 20 insurance broker in the United States and is unique among other brokers who represent engineering firms because of our unparalleled experience in the A/E industry. Greyling, a division of EPIC was designed for design professionals, and engineering firms are our focus and passion.

We have built a business model and hired key personnel with the singular goal of providing exemplary and unrivaled service to engineering firms. Greyling, a division of EPIC is the only A/E insurance broker with the following traits.

DISTINCTIVE TRAITS

- Contract reviews by Licensed Attorneys on staff that have been in private practice focused on construction law and general counsel for engineering and architecture firms
- The only insurance broker member of the *American College of Construction Lawyers (ACCL)*
- A former engineering Professional Liability underwriter
- A licensed engineer who served on the risk management committee of one of the largest engineering firms in the country
- A former Brownfield developer and environmental consultant
- Dedicated Certificate of Insurance staff
- Long standing member of ACEC National and numerous Member Organizations
- Risk Management training programs including educational webinars
- Support of Legislative issues and industry advocacy
- National & State ACEC PAC Contributors
