My WINGS - Pilot Proficiency Program
To assist in your understanding of the new WINGS – Pilot Proficiency Program, and to help you get started, we have prepared a brief and informative tutorial (21 minutes). Please click here to view this on-line help tutorial.
Welcome to my WINGS - Pilot Proficiency Program page or simply "My WINGS". This is where you will manage and track all of your activities in the WINGS - Pilot Proficiency Program. Don't worry, I agree, at first glance it does look a little intimidating, but remember the first time you sat in the pilot's seat for your first flight? Did you ever think you would know what all those dials and switches did? Before long, you will be navigating around the site like an old hat just like you do that airplane that was so intimidating just days ago (okay maybe years ago for some).
Just click here if you need help with this page or any part of the WINGS - Pilot Proficiency Program. If the online help doesn't do the trick, or you just hate reading all the fine print you can always contact your local FAASTeam Representative and they will be more than happy to help you get started.

Setting Your Pilot Profile

WINGS - Pilot Proficiency Program Pilot Profile

Your WINGS - Pilot Proficiency Program Pilot Profile allows you to provide the system information to help tailor your educational experience with FAASafety.gov. You may begin to set your profile by clicking any of the links below.

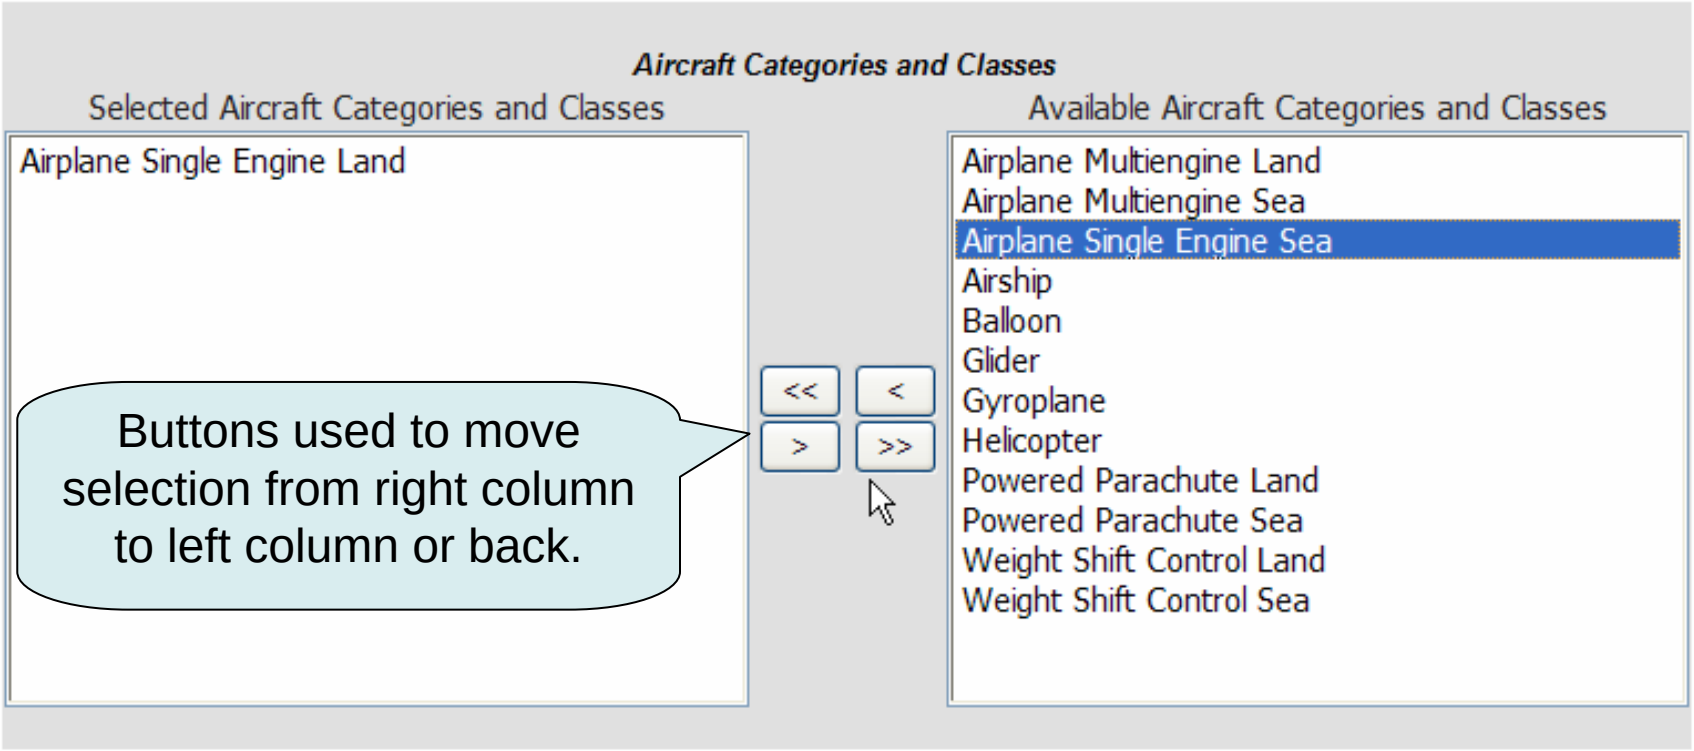
- ***Click here to select or change your Aircraft Category and Class preferences.***
- ***Click here to set your last flight review date.***

Click here to stop participating in the WINGS - Pilot Proficiency Program. Your accumulated credits will be saved in the system. You may resume participating in the WINGS - Pilot Proficiency Program at any time.

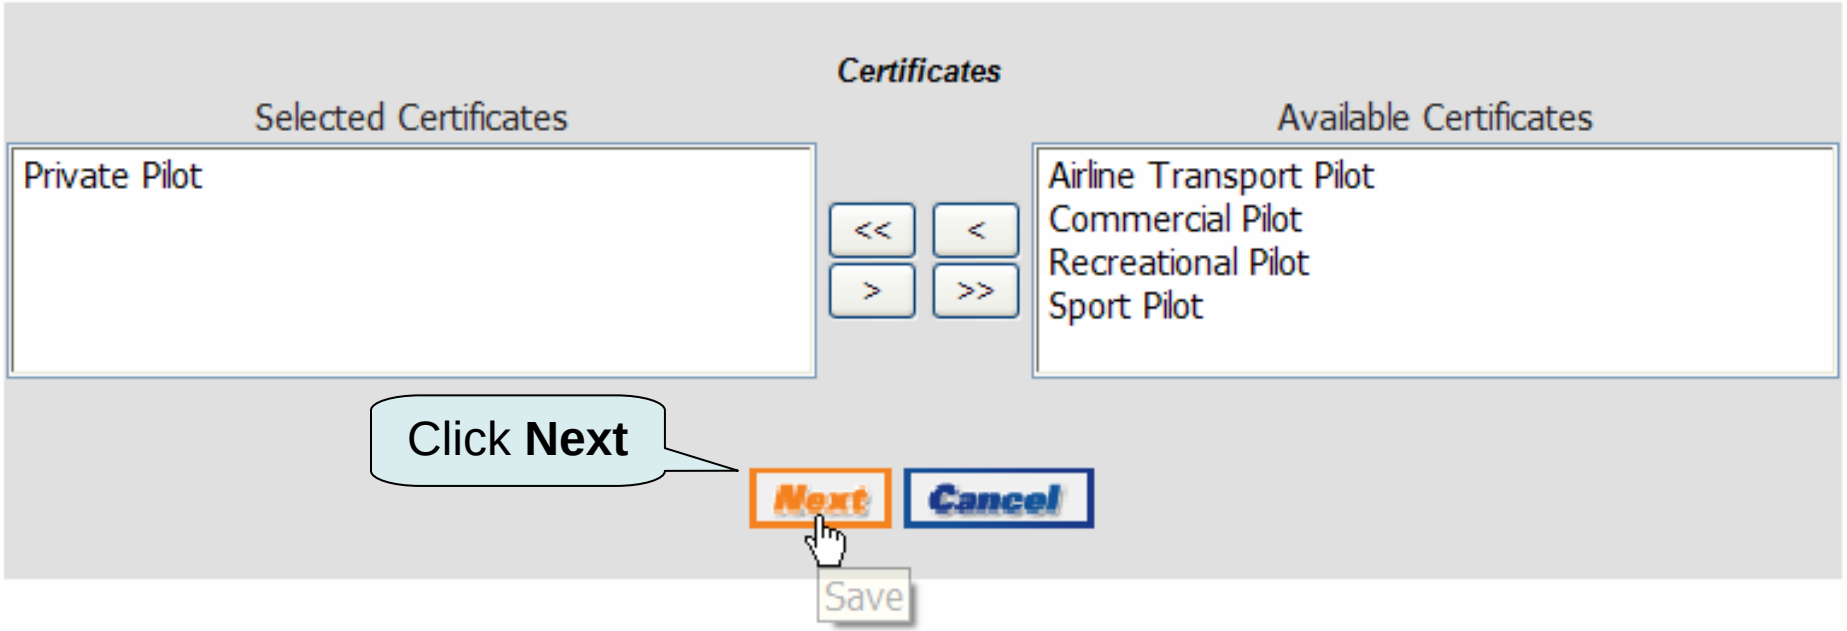
WINGS - Pilot Proficiency Program Pilot Profile

Click here for "My WINGS" -- your WINGS - Pilot Proficiency Program information and tracking page.

With over 300 courses and syllabi to choose from and additional ones added monthly it will help if you take a moment to select the aircraft categories and classes that you will most frequently use to obtain WINGS credit. Selecting the certificates you hold will also help narrow the course activities shown on subsequent screens as well. See some examples at the bottom of this page.

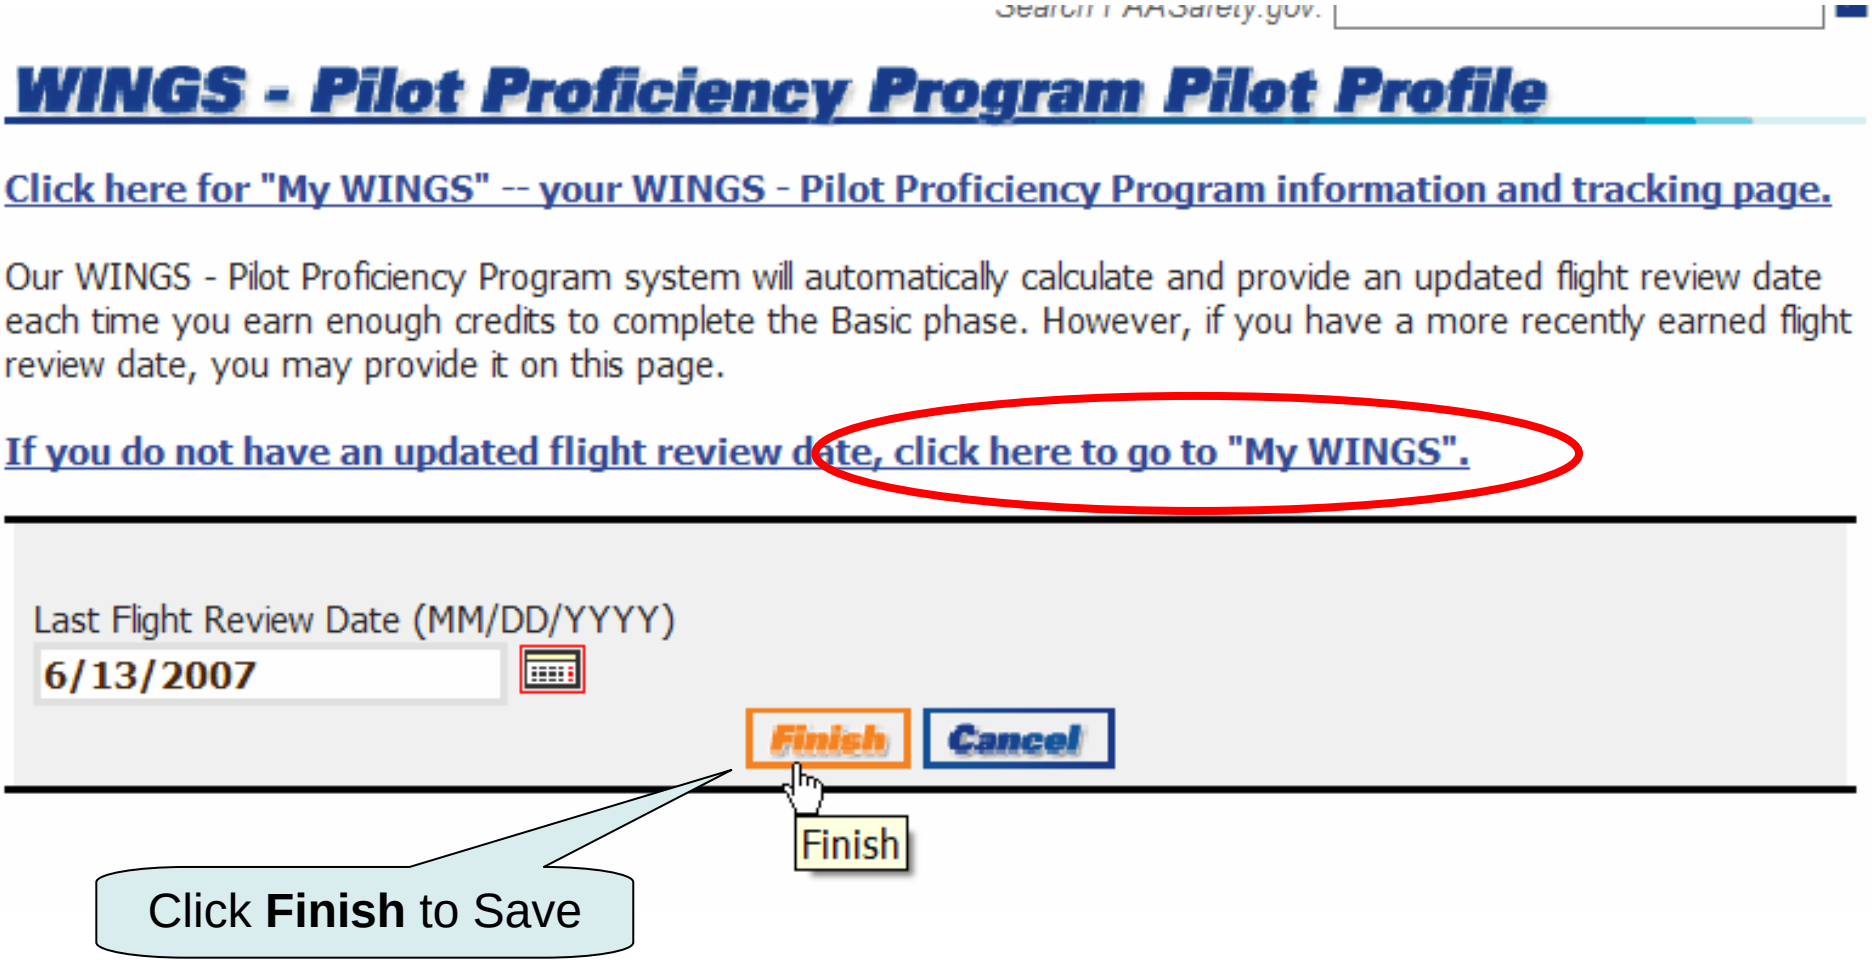


In this section you may change your Certificates selections. These selections are used to assist in searching for Accredited Activities that interest you.



Example: A private balloon pilot does not want to see all the accredited activities for airplanes and helicopters so he/she would select "Balloon" in the aircraft categories and classes window above and then Private in the certificates window.

Samples of choices given.
More are on the web page.



WINGS - Pilot Proficiency Program Pilot Profile
Click here for "My WINGS" -- your WINGS - Pilot Proficiency Program information and tracking page.
Our WINGS - Pilot Proficiency Program system will automatically calculate and provide an updated flight review date each time you earn enough credits to complete the Basic phase. However, if you have a more recently earned flight review date, you may provide it on this page.
If you do not have an updated flight review date, click here to go to "My WINGS".

WINGS - Pilot Proficiency Program Credit Search

By design this search criteria is set to those preferences you chose on your WINGS - Pilot Proficiency Program Pilot Profile page.

The criteria are further selected automatically when you click on any of the progress blocks on the My WINGS page. This is done to provide you with the simplest means of finding the activities that will fill those particular requirements.

However, we have left you with the flexibility to change any of these selection criteria to do your own search through the hundreds of course syllabi and thousands of WINGS Accredited Activities available. Caution should be exercised to make sure you pick an Accredited Activity that you qualify to use for credit in the WINGS - Pilot Proficiency Program if that is your desire. This is another reason to make sure your WINGS - Pilot Proficiency Program profile is setup correctly. Click here if you would like to review your profile before continuing your search.

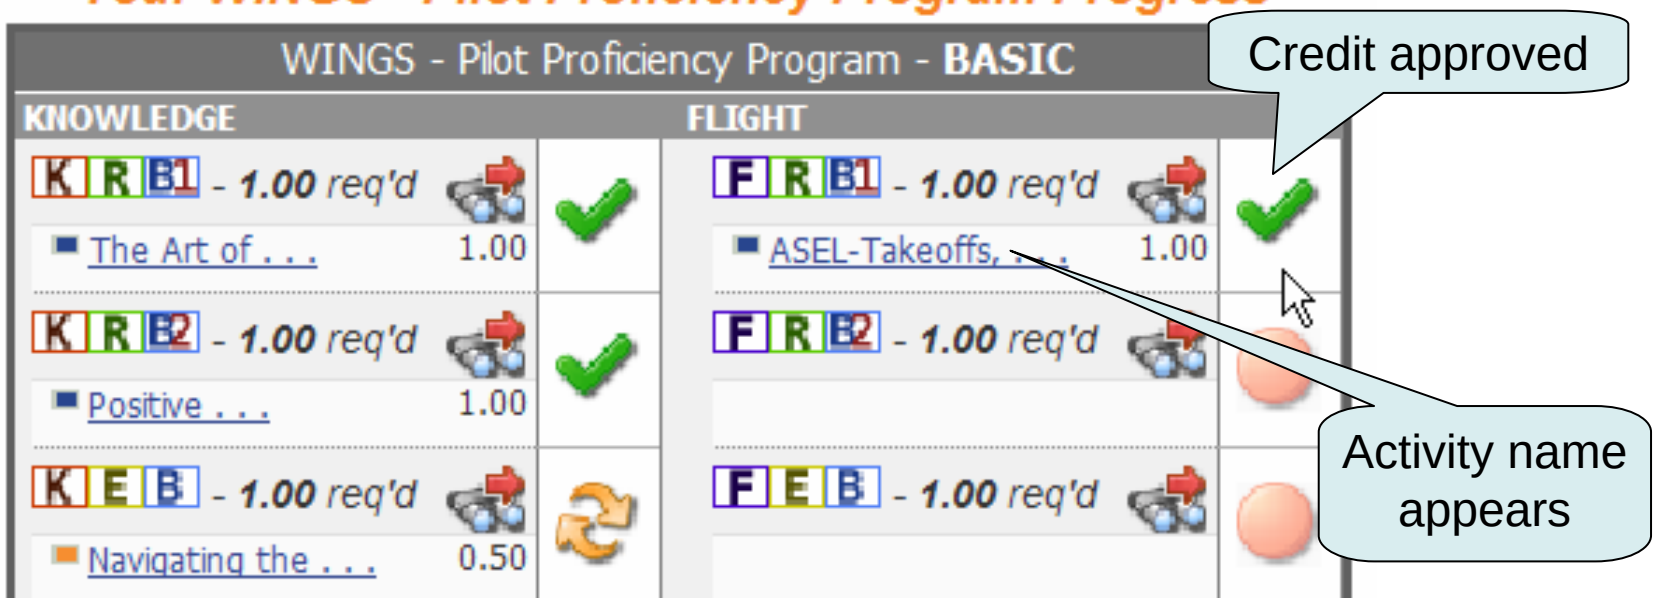
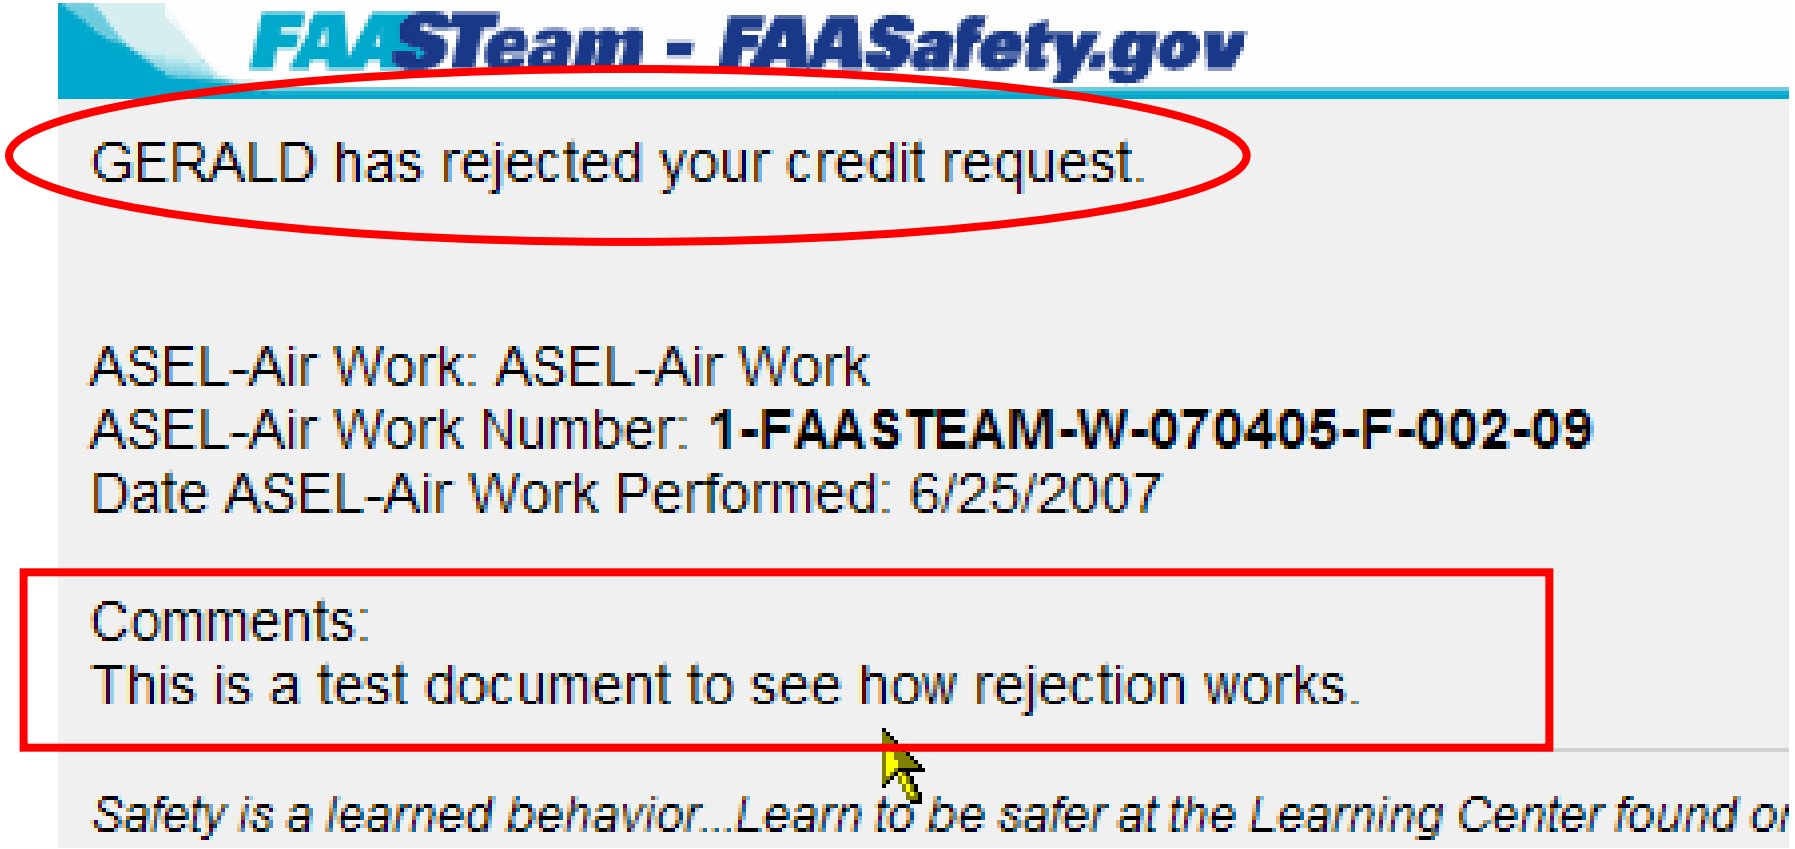
Your WINGS - Pilot Proficiency Program Progress



If the person you requested giving you credit approval feels that they cannot, you will get an email showing you that approval was rejected and why.



When you ask a CFI or FAASTeam Program Manager or Representative to approve a credit for training that he/she has not given, you must provide evidence of the training. The person approving is certifying that they have seen this evidence.
