

How to Learn at SIC

Modes of Instruction for Fall 2020

Blended Face-to-Face

Some of our face-to-face sections may remain the same, but many will be blended with web-enhanced learning opportunities aside from some in-class engagements.

Hyped Up Hybrid

Our hybrid courses have allowed some web-enhancement already, but now we've added even more remote possibilities to reduce your time on campus.

Flexible Space

Some classes may be streamed live from SIC straight to your home. If sections are taught this way, you have the choice to either learn at home or come to campus.

All Online

As always, these courses as listed in the course schedule are all online, anytime.

We are helping students social distance while maintaining a quality learning experience!

Check with your instructors to find out the mode of instruction for each class.
