

## 8th Grade Learning Plan

Week of April 14 - April 17

8th grade families,

We have condensed our plan for this week into the following chart to make it easier for you to follow. More specifics on the assignments and helpful resources can be found in each teacher's Google Classroom as well.

Your child can complete the tasks a little each day or complete one subject per day. We want you to do whatever works best for your family and as always please let us know if there is anything you need.

Mrs. Holzapfel is starting a Google Classroom to get information to students on a variety of topics, including scheduling for next year. Please join her Classroom using the following code: **abkxnsd**
