**RE: SUPPORT LETTER FOR THE TEMESCAL CANYON ROAD WIDENING PROJECT
 BETWEEN TOM BARNES AND EL CERRITO ROAD**

Dear Congressman Calvert:

On behalf of our business community, the CORONA Chamber of Commerce is encouraging you to support the widening project on Temescal Canyon Road between Tom Barnes Drive and El Cerrito Road, in the unincorporated community of El Cerrito, with a mailing address of Corona, CA.

As you consider requests for the Surface Transportation Bill, we strongly urge your support this crucial project which will widen this corridor from two (2) to four (4) lanes and ease the congestion within the El Cerrito community and throughout the region.

As the committee intends to only fund community projects on a limited basis, the CORONA Chamber requests this project to be one of the top priorities for funding. The proposed project is directly aligned with the long-term objectives of the 42nd Congressional District. As we focus on business expansion and attract more high-paying jobs to Riverside County, this project is a crucial part of the infrastructure needed for that type of expansion and urge your support.

We thank you, Congressman for your continual support of the business community and the progressive growth for our region.

**The Honorable Ken Calvert
United States House of Representatives
2205 Rayburn House Office Building
Washington, D.C. 20510**

Dear Congressman Calvert:

The Corona-Norco Unified School District offers no bus transportation for students residing in the seven neighborhoods in the north end of the Temescal Valley community. Parents must drive their children to and from Santiago High School and/or El Cerrito Middle School, located in Corona and El Cerrito, respectively. Because of the early-morning commuter gridlock on the I-15 freeway, the preferred route is Temescal Canyon Road.

As Temescal Valley grows – now an estimated population of 27,000, that narrow two-lane stretch between Tom Barnes Street and El Cerrito Road becomes as gridlocked as the freeway. It often takes parents 45-minutes to drive their students to school, a distance of less than four miles.

It is for this reason we are asking you to please accept this letter of support for the Temescal Canyon Road widening between Tom Barnes and El Cerrito Road located in the unincorporated community of El Cerrito. As you consider requests for the Surface Transportation Bill, we strongly urge your support this crucial project which will widen this corridor from two (2) to four (4) lanes and ease the congestion within the El Cerrito and Temescal Valley communities.

As the committee intends to only fund community projects on a limited basis, we request this project to be one of the top priorities for funding. The proposed project is directly aligned with the long-term objectives of the 42nd Congressional District. As we focus on business expansion and attract more high-paying jobs to Riverside County, this project is a crucial part of the infrastructure needed for that type of expansion and we urge your support.

Thank you ...

**Re: 2021 Surface Transportation Authorization
Riverside County's Temescal Canyon Road Widening Project
El Cerrito Segment- SCAG FTIP Project ID: RIV150901A**

Dear Congressman Calvert,

On behalf of the Riverside County Board of Supervisors we write in support of Riverside County's request to secure an earmark for the Temescal Canyon Road Widening Project- El Cerrito Segment under the Congressional 2021 Surface Transportation Authorization Funding process. This project will enhance the quality of life for residents of Temescal Valley and have a positive impact on businesses as well as the health and safety of the general public.

The requested \$5 million in federal support would provide traffic congestion relief by widening the two-lane road to a four-lane highway and improve response times for emergency responders. Additionally, the road widening project would provide sidewalks for enhanced safety of children walking to El Cerrito Middle School. Also, this project would improve mobility for disabled persons traversing through the area by providing accessible sidewalks and curb ramps and pedestrian traffic signals. Furthermore, the Temescal Canyon Road Widening Project would provide an improved circulation route for commercial trucks and at the same time reduce vehicle emissions by reducing traffic congestion. Lastly, the Temescal Canyon Road Widening Project- El Cerrito Segment will accommodate planned infrastructure improvements consistent with the County of Riverside General Plan Circulation Element.

For these reasons the Riverside County Board of Supervisors requests that the Temescal Canyon Road Widening- El Cerrito Segment Project be prioritized, and we respectfully ask for your support of this important project. Should you have any further questions, please do not hesitate to contact Deputy County Executive Officer Brian Nestande at (951) 955-1110 or bnestande@rivco.org.

Thank you very much for your favorable consideration of this request.

Sincerely,

Karen Spiegel
Chair, Riverside County Board of Supervisors

April 26, 2021

Congressman Ken Calvert
US Representative
2205 Rayburn HOB
Washington, DC 20515

Dear Representative Calvert,

The County of Riverside proposes to widen the last segment of a 5.5-mile long improvement effort to Temescal Canyon Road between State Street and Interstate 15; in the unincorporated Riverside County that has not been widened to four lanes. The project under consideration will widen Temescal Canyon Road from two to four lanes, including constructing curb, gutter, sidewalk, ADA ramps, and bike lanes, from north of El Cerrito Road to Tom Barnes Street (0.7 miles); plus a 200-foot segment of widening north of Cajalco Road.

The proposed project will provide congestion relief, reduce response time of emergency service providers, provide a safe route to school for children, improve access for persons with disabilities, increase safety for pedestrians and bicyclists, promote active transportation, reduce vehicle emissions, and improve the quality of life for residents, businesses, and visitors along the Temescal Valley corridor.

The County of Riverside requests \$5 million in Surface Transportation Program funding for this \$45 million project to complete the Preliminary Engineering and Environmental Document phase and begin the right-of-way acquisition phase. If funded, both of those phases can be completed, and the funding expended by the end of September 2026.

If you have any questions, please contact the County of Riverside Director of Transportation, Mark Lancaster, at 951-955-6740 or by email at mlancaster@rivco.org.

Thank you for your consideration

Charissa Leach,
Assistant CEO/TLMA Director

April 14, 2021

The Honorable Karen Spiegel
County Supervisor, 2nd District
4080 Lemon Street, 5th Floor
Riverside, CA 92501

**Subject: 2021 Surface Transportation Authorization
Letter of Support for Funding of the County of Riverside's
Temescal Canyon Road Widening Project (El Cerrito Segment)
SCAG FTIP Project ID: RIV150901A**

Dear Ms. Spiegel:

On behalf of the City of Corona, I am writing to you today to express our full support for the funding of the Temescal Canyon Road Widening Project (El Cerrito Segment) under the Congressional 2021 Surface Transportation Authorization Funding process. The project will enhance the quality of life in Temescal Valley and have a positive impact on the health and safety of residents, businesses, and visitors.

The goals of the project are to:

- Provide congestion relief by widening the 2-lane rural road to a 4-lane highway
- Improve response time for emergency responders
- Provide enhanced safety for children walking to El Cerrito Middle School by providing sidewalks
- Improve mobility for disabled persons traversing through the area by providing accessible sidewalks, curb ramps, and pedestrian traffic signals
- Promote active transportation and enhance public health and safety by providing marked on-street bike lanes, resulting in a continuous 5-mile long bike lane corridor along Temescal Canyon Road
- Provide an improved circulation route for trucks hauling material from the quarry on Minnesota Road
- Reduce vehicle emissions
- Accommodate planned infrastructure improvements consistent with the County of Riverside General Plan Circulation Element

Summary of Project

The County of Riverside proposes to widen 0.8 mile of Temescal Canyon Road from two lanes to four lanes with a center turn lane and on-street bike lanes. The limits of the project are from north of El

Cerrito Road to Tom Barnes Street, plus a 200-foot segment of widening north of Cajalco Road. The project includes full road reconstruction with added curb and gutter, sidewalk, accessible curb ramps, street lights, and relocated utilities. The project also includes reconfiguring offset intersections at two locations to improve traffic operations.

Located along 11 miles between the City of Corona and the City of Lake Elsinore, Temescal Canyon Road traverses the unincorporated area of Temescal Valley serving as the primary north-south arterial through the valley and often serving as an alternate route for motorists to bypass congestion on the I-15 freeway during peak commuting hours.

Currently, several segments of Temescal Canyon Road exist as a rural two-lane road and are currently loaded beyond the road's capacity due to increases in regional growth over the years. This congestion is having a negative impact on the quality of life of local residents. By widening Temescal Canyon Road to provide extra travel lanes, relief can be provided to residents. A future project to add express lanes to I-15 between Cajalco Road in Corona to Lake Street in Lake Elsinore is part of a larger goal to provide regional congestion relief.

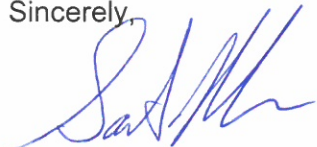

In 2020, the County of Riverside completed the widening of two segments of Temescal Canyon Road totaling 1.3 miles between Dos Lagos Drive and Dawson Canyon Road. This next 0.8-mile segment of widening would provide a continuous 4-lane arterial highway for 5 miles between Diplomat Avenue and the Temescal Canyon Road interchange at I-15.

The proposed improvements will increase safety, reduce vehicle emissions, improve access for emergency service responders, promote active transportation, and improve the quality of life for residents, businesses, and visitors along the Temescal Valley corridor.

For these reasons, the City of Corona supports the County of Riverside's Temescal Canyon Road Widening Project (El Cerrito Segment). We respectfully request that this project be prioritized along with the top projects in the district.

We appreciate your time and consideration.

Sincerely,

*Savat Khamphou, P.E.,
Acting Public Works Director/City Engineer
City of Corona*

cc: Mark Lancaster, Director of Transportation, County of Riverside

Dear Congressman Calvert:

Please accept this letter of support for the Temescal Canyon Road widening between Tom Barnes and El Cerrito Road located in the unincorporated community of El Cerrito. As you consider requests for the Surface Transportation Bill, we strongly urge your support this crucial project which will widen this corridor from two (2) to four (4) lanes and ease the congestion within the El Cerrito community and throughout the region.

As the committee intends to only fund community projects on a limited basis, we request this project to be one of the top priorities for funding. The proposed project is directly aligned with the long-term objectives of the 42nd Congressional District. As we focus on business expansion and attract more high-paying jobs to Riverside County, this project is a crucial part of the infrastructure needed for that type of expansion and urge your support.

As you consider requests for the Surface Transportation Bill, we strongly urge your support this crucial project which will widen this corridor from two (2) to four (4) lanes and ease the congestion within the El Cerrito community and throughout the region.

This is a necessary fix where three other arteries, Foothill, Ontario, and TemescalCanyon Road, converge to a one lane bottleneck next to the often-bottlenecked freeway. This artery improvement is vital to get our kids to school and for our medical emergency services.

As the committee intends to only fund community projects on a limited basis, we request this project to be one of the top priorities for funding. The proposed project is directly aligned with the long-term objectives of the 42nd Congressional District.
