Section 39: Article 16. Teacher Recruitment, Retention, and Support Grant Programs

44416

(2) (A) A teacher participant who receives a teacher service scholarship, signing bonus, or student debt payment shall agree to teach at a school within the jurisdiction of the grant recipient and work as an education specialist serving a caseload of pupils who receive special education services in a special education setting for four years, and the teacher participant shall have five years to meet that obligation. (B) A teacher participant who fails to complete the service obligation described in subparagraph (A) shall reimburse the sponsoring grant recipient the amount of grant funding received as a teacher service scholarship, signing bonus, or student debt payment. The amount to be reimbursed shall be adjusted proportionately to reflect the service provided if the teacher participant taught at least one year, but less than the required four years, at the sponsoring grant recipient. (C) If a teacher participant is unable to complete a school year of teaching, that school year may still be counted toward the required four complete school years if any of the following occur: (i) The teacher participant has completed at least one-half of the school year. (ii) The employer deems the teacher participant to have fulfilled his or her contractual requirements for the school year for the purposes of salary increases, probationary or permanent status, and retirement. (iii) The teacher participant was not able to teach due to the financial circumstances of the sponsoring grant recipient, including a decision to not reelect the employee for the next succeeding school year. (iv) The teacher participant has a condition covered under the federal Family and Medical Leave Act of 1993 (29 U.S.C. Sec. 2061 et seq.) or similar state law. (v) The teacher participant was called or ordered to active duty status for more than 30 days as a member of a reserve component of the Armed Forces of the United States.
