

# How can I get a list of all my RBS (row-based security) procedures?

## Contents

[Introduction](#)

[How to get the list of all RBS procedures?](#)

## Introduction

This document describes how to get the list of all Row-Based Security (RBS) Procedures as when you create a free form row-based security policy, a Composite procedure is created. It serves to customize the behavior of the SQL statement.

## How to get the list of all RBS procedures?

Run this query in Scratchpad:

```
select * from /services/databases/system/ALL_RESOURCES where ANNOTATION like 'Row Level%'
```
