| <b>Dragon NaturallySpeaking® 11.....</b>                                | <b>i</b>    |
| <b>Contents .....</b>   | <b>iii</b>  |
| <b>Acknowledgments .....</b>  | <b>vii</b>  |
| <b>Cover.....</b>   | <b>vii</b>  |
| <b>About the Author .....</b>   | <b>vii</b>  |
| <b>Introduction .....</b>   | <b>viii</b> |
| <b>What's New!.....</b>   | <b>viii</b> |
| <b>Chapter 1: Introduction to Macros and Commands.....</b>              | <b>1</b>    |
| Why Have Custom Commands? .....   | 1           |
| The Prerequisites .....   | 1           |
| <b>Chapter 2: Text Command Creation.....</b>                            | <b>3</b>    |
| Writing Commands for Repeated Text.....                                 | 3           |
| Inserting Text Using Advanced Scripting .....                           | 3           |
| How to Name Insertable Text.....  | 6           |
| <b>Chapter 3: Control Command Creation.....</b>                         | <b>7</b>    |
| Decide What You Would Like to Do .....                                  | 7           |
| Record the Steps Taken to Do the Task .....                             | 7           |
| Decide How You Will Verbally Express the Task .....                     | 8           |
| Create the Commands .....   | 8           |
| Summary of Steps to Create a Command .....                              | 8           |
| Command Example: Save a Document in a Directory .....                   | 8           |
| Building Commands – Basic Steps .....                                   | 14          |
| When NOT to Make a Command .....  | 14          |
| <b>Chapter 4: Advanced Scripting.....</b>                               | <b>17</b>   |
| Advanced Command Creation .....   | 17          |
| Example: Date for "Yesterday" .....                                     | 17          |
| Date/Time using Format Statement .....                                  | 19          |
| Example: What Time Is It? .....   | 20          |
| String Operations .....   | 21          |
| Combining Commands .....  | 23          |
| Debugging Commands.....   | 23          |
| Common Problems.....  | 24          |
| Caution! .....  | 25          |
| <b>Chapter 5: List/Template Commands.....</b>                           | <b>27</b>   |
| Text and Graphics Commands Using Lists .....                            | 27          |
| Example: Acne Description Part 1.....                                   | 28          |
| Name Editor .....   | 28          |
| Example: Acne Description Part 2.....                                   | 29          |
| Example: Acne Description Part 3 – Adding to a List.....                | 31          |
| Example: Part Numbers Based on Part Names .....                         | 32          |
| Example: 3-D Measurements .....   | 34          |
| Name Editor Example – 3-D Measurements .....                            | 35          |
| Complex List Applications .....   | 40          |
| Common Lists .....  | 41          |
| Example: Phone List .....   | 41          |
| Example: Repeated Fields -- Combining Words, Letters, Numbers, etc..... | 42          |
| <b>Chapter 6: Dialog (Form) Editor.....</b>                             | <b>47</b>   |

|  |           |
|--|-----------|
| Dialog Example 1: A Form with Two Text Boxes .....   | 47        |
| Dialog Example 2: OK/Cancel, Radio Buttons .....   | 53        |
| Dialog Form Description – Top Controls .....   | 56        |
| Edit Item Properties .....   | 57        |
| Delete .....   | 57        |
| Cut, Copy, Paste .....   | 57        |
| Move in Front (towards End Dialog), Move Behind (towards Begin Dialog), Select in Front (towards End Dialog), Select Behind (towards Begin Dialog) ..... | 58        |
| Dialog Form Controls – Left Side Controls .....  | 58        |
| Select .....   | 58        |
| Add Text .....   | 58        |
| Add TextBox .....  | 58        |
| Add CheckBox .....   | 59        |
| Add OKButton, Add CancelButton .....   | 59        |
| Add PushButton .....   | 59        |
| Add Picture .....  | 59        |
| Add OptionButtons .....  | 59        |
| Add ListBox, Add ComboBox, Add DropDownList, Add MultiListBox .....  | 59        |
| Advanced Dialog Functions .....  | 59        |
| Setting Focus.....   | 60        |
| Setting Accelerator (Alt+ ) Keys .....   | 60        |
| Acting Upon a CheckBox .....   | 61        |
| Hiding Fields .....  | 61        |
| Changing Headings and Text Fields .....  | 61        |
| Adding Commands for a Form .....   | 62        |
| Example (on-line): Large Type Dialog .....   | 63        |
| <b>Chapter 7: Details, Details, Details .....</b>  | <b>65</b> |
| Specific Hints by Advanced Scripting Command Type – Dragon NaturallySpeaking® .....  | 65        |
| Extensions, Alphabetic .....   | 65        |
| AppBringUp .....   | 65        |
| AppSwapWith .....  | 65        |
| Beep .....   | 65        |
| ButtonClick – Click the Specified Mouse Button.....  | 65        |
| ClearDesktop .....   | 65        |
| ControlPick – Selects a Control (Button, Prompt, ....).....  | 65        |
| DdeExecute - Sends a DDE Command .....   | 66        |
| DdePoke – Sets Value in a DDE Application .....  | 66        |
| DIICall – Calls a Function in a Windows DLL .....  | 66        |
| DragToPoint – Drag Mouse to a Point.....   | 66        |
| GoToSleep – Put Dragon NaturallySpeaking® into Sleep Mode .....  | 66        |
| HeardWord .....  | 67        |
| HTMLHelp – Display HTML-based Help .....   | 68        |
| MenuCancel – Cancels the Current Menu .....  | 68        |
| MenuPick – Selects a Menu or Menu Item .....   | 68        |
| Mid – Return Part of a String .....  | 68        |
| MouseGrid – Position Mouse Pointer .....   | 69        |
| MsgBoxConfirm .....  | 69        |
| PlaySound .....  | 69        |
| Remember Point – Save Current Mouse Position .....   | 69        |
| RunScriptFile .....  | 69        |
| SendSystemKeys, SendDragonKeys, and SendKeys.....  | 69        |
| SetCharFormat - Change Type Font .....   | 70        |

|  |           |
|--|-----------|
| SetMicrophone – Microphone On/Off .....  | 72        |
| SetMousePosition – Places Mouse on a Pixel .....   | 72        |
| SetRecognitionMode .....   | 72        |
| ShellExecute – Start an Application .....  | 73        |
| TTSSPlayString – Generate Synthesized Speech .....   | 73        |
| Wait – Delay the Script .....  | 73        |
| WaitForWindow/WaitForCompletion .....  | 74        |
| WakeUp – Resumes Recognition .....   | 74        |
| WinHelp – Runs Windows Help .....  | 74        |
| <b>Specific Hints by Advanced Scripting Command Type – VB and VB Extensions .....</b>              | <b>74</b> |
| <b>Special Keystrokes .....</b>  | <b>74</b> |
| <b>Producing Special Characters .....</b>  | <b>75</b> |
| Clipboard .....  | 75        |
| Date/Time, Now .....   | 75        |
| Debugging .....  | 75        |
| Error Trapping .....   | 76        |
| MsgBox .....   | 76        |
| #Uses .....  | 77        |
| <b>Dragon NaturallySpeaking® Scripting Language, VB 6, Windows Scripting Host Comparison .....</b> | <b>78</b> |
| <b>Adjusting for Different Keyboards .....</b>   | <b>78</b> |
| Executing Existing Word Macros .....   | 78        |
| Executing Dragon Macros from Word .....  | 79        |
| Using WordPerfect Macros .....   | 80        |
| Executing Macros in other MS-Office Applications .....   | 80        |
| Using Excel Macros .....   | 80        |
| Using Internet Explorer Macros .....   | 83        |
| Using the Win32 API (Windows Application Programming Interface) .....                              | 84        |
| Win32 API Example: Active Window Title .....   | 84        |
| Win32 API Example: Current Mouse Position .....  | 84        |
| Libraries of Functions .....   | 84        |
| Using Other Application APIs .....   | 85        |
| <b>Chapter 8: Document Production with Microsoft Word .....</b>                                    | <b>87</b> |
| Why Use Document Templates, Word Macros, and Voice Commands? .....                                 | 87        |
| Creating a New Document Template .....   | 88        |
| Making a Document Template Known to Dragon NaturallySpeaking® .....                                | 89        |
| Command for Navigation Between Fields -- “NEXT” .....  | 90        |
| Dates .....  | 92        |
| Insertable Text Within Word .....  | 92        |
| How to Add an Insertable .....   | 93        |
| Insertable Text Hints .....  | 93        |
| Using Insertable Text Without Dragon NaturallySpeaking® .....                                      | 94        |
| Numbered Lists .....   | 94        |
| Making Dragon Conform .....  | 94        |
| Learning VBA from Word Macros .....  | 95        |
| Basic Word Objects/Constructs .....  | 95        |
| Letterhead .....   | 97        |
| Large Documents .....  | 97        |
| Retaining Documents .....  | 97        |
| <b>Chapter 9: Dragon Commands Advanced Techniques .....</b>  | <b>99</b> |
| Nuance Advanced Sample Commands .....  | 99        |
| Shell Commands .....   | 99        |

|   |            |
